Jury Returns Indictment in Slaying Case

Schinagle Faces First Degree Murder Trial At Upper Sandusky

Special to The Star

UPPER SANDUSKY — The Wyandot County grand jury yesterday returned an indictment of first degree murder against Roy Schinagle Jr., 19-year-old Ohio Wesleyan University student who was charged with the slaying of his college sweetheart, Cynthia Pfeil, 19, of White Plains, N. Y.

Schinagle's attorney, Raymond H Stansberry of Upper Sandusky, said he expects to enter a plea of not guilty with a request for a mental examination at the Lima State Hospital.

It is expected that Schinagle will be delivered his indictment today. Under the law, he can not plead until 24 hours after its delivery.

6 Others Considered

After clearing the way of six lesser cases Monday, the grand jury spent the entire day yesterday hearing and weighing evidence in the Schinagle case.

Convening at 9 a.m., the jury called 13 witnesses. The jury dismissed the last witness at 3 15 p m and at 4 recalled Wyandot County Prosecutor Harold Roth for questioning. The indictment was filed at 5 30.

In addition to the Schinagle indictment, the jury returned one sub rosa indictment and charges of non-support of minor children against Floyd Hoffman and John May, both of near Carey

Charges of non-support of a minor child were filed against John Ehrhart of Upper Sandusky and Dale Atherton of near Wharton Kermit D. Brady of near Morral was indicted on two counts of passing bad checks.

Witnesses testifying in yesterday's hearing on the Schinagle case were Carl Gatchell of Upper Sandusky, Wyandot County road employe who discovered the girl's battered body along a county road on Sept. 17; Wyandot County Sheriff Dean McAllister, main investigator in the case; Upper Sandusky Police Captain Calvin Swartz; Dr B. H. Hathaway, county coroner; and Captain Justin E Cornely of the Marion Police Department who was called in to assist in the interrogation of Schinagle.

Others Testify

Others testifying were Joseph Martino, Arnold Fetter and E. E Galloway of the Criminal Bureau of Investigation at London, O.; Robert Pfeil of Columbus, brother of the slain girl; R. J. Constein, Upper Sandusky commercial photographer who took official pictures of the body and scene; John Montag and David Kellogg, Ohio Wesleyan students, and Janice Teachout, member of the

AMERICA WELCOMES TWO HEROES. Two of America's most famous soldiers, ex-Korean war prisoner Maj. Gen. William F. Dean (top, left) and Gen. Mark W. Clark (bottom) retiring commander of the U N. forces in the Far East, receive heroes' welcomes in Washington and New York. Dean told Washington newsmen he has not decided whether he will retire. Beside him is Lt. Gen. Williston B. Palmer, long-time friend and former corps commander in Korea. Clark, who is retiring Oct. 31, was welcomed in a traditional ticker-tape parade up Broadway. Asked if he intended to run for office, he said, "The only thing I'm going to run for is cover."

U.N. Puts Off Debate Over Trieste Issue

Big 3 To Try More Diplomacy; Jordan Issue Up Thursday

UNITED NATIONS, N. Y. (AP)—The U. N. Security Council voted over Soviet opposition last night to hold off debate on the Trieste issue and cleared its decks for an exhaustive probe into the explosive Palestine situation.

The 11-nation council faces its next Palestine debate tomorrow when it takes up Syria's plaint that Israel is endangering Middle East peace by diverting the waters of the historic River Jordan.

U. S. Move Wins

During two wrangling sessions yesterday the council pushed through a U. S. call for a full-dress inquiry into the alleged border incidents between Israel and her Arab neighbors, including the recent Israeli attack on the Jordan village of Kibya in which Jordan claims 66 persons were killed and the village flattened.

Gen. Vagn Bennike, chief of staff of the truce supervision organization in Palestine, has been summoned to report on the general Palestine situation. He left Jerusalem by plane last night and is expected to arrive here later this week.

The tense Middle East issue was further complicated last night when Israel fired off a counter-complaint, demanding the council take up a charge that the Arab states violated the 1949 armistice agreements, engaged in illegal blockade measures and refused to negotiate a peace.

New Incident Reported

In Jerusalem, the Israeli radio reported a fresh incident last night claiming troops of Jordan's Arab Legion fired across the border at a group of Jewish railway workers near the Holy City. No casualties were reported.

At the close of its double-header last night, the Security Council overrode Soviet Delegate Andrei Vishinsky's demands for immediate action to internationalize Trieste. It decided to postpone the issue until Nov 2. This would give the Big Three time to try to settle Trieste's future through diplomatic moves.

WHAT TO DO ABOUT ISRAELI-JORDAN CLASHES? Serious moment in the United Nations Security Council finds U. S. delegate Henry Cabot Lodge (right) leaning over to confer with a thoughtful Sir Gladwyn Jebb (extreme left) on recent raids across the Israeli-Jordan border. Listening in are Jack Ross (second from left) and James Wadsworth of the U. S delegation. Lodge later warned that the 11-nation body may have to act to prevent further violence in the border clashes

Blames Fuss On Politics, Not Farmers

Will Not Be Critical So Early, President Tells News Session

WASHINGTON (AP) — President Eisenhower today voiced full confidence in Secretary of Agriculture Benson who has come under fire from some Congress members.

Eisenhower also told a news conference he believes the nation's cattlemen and farmers are taking their current problems in stride and are not as upset about them as some politicians are.

Not Critical

The President said he is not going to be critical of his secretary of agriculture because Benson has not yet produced a quick solution of the farm problem.

His statements came when he was asked about assertions by Sen Young (R-ND) that Benson should resign because, Young said, the Cabinet member had "lost the confidence of the farmers."

Eisenhower said he thinks it is up to the President to decide who should be his principal advisers in each field of government.

And he declared he has seen no one more dedicated than Benson to working out the problem of the conflict between producers and consumers.

Declines Comment

Eisenhower declined, with a laugh, to say whether he thought discontent over administration farm policies was the chief factor in the recent election of a Democrat to Congress from a normally Republican congressional district in Wisconsin.

The chief executive was in a buoyant mood and touched a wide range of subjects in his news conference.

He said among other things:

1. He does not plan to take any part on the state or local level in next year's congressional elections but hopes he can help the Republican Party by trying to establish policies which the overwhelming majority of Americans approve

2. On the subject of Cpl. Edward S. Dickenson, the soldier who changed his mind about remaining in Communist hands—considering the intense indoctrination to which American prisoners were subjected, he sometimes wonders there weren't more who elected to stay behind.

3. He does not know whether it would be possible to sell the Tennessee Valley Authority (TVA) to private industry without wrecking the entire system. He had been asked to comment on the statement by Clarence Manion, head of a commission studying federal-state relations, that TVA never should have been built and ought to be sold by the federal government.

4. On Israel, he replied with a

Virginian 'Comes Back'

'Had Enough,' States GI Renouncing Communism

PANMUNJOM (AP) — A corporal from Virginia's mountain country—the first of 23 unrepatriated American war prisoners to quit Communism—said today "I had enough" of life under the Reds.

Cpl Edward S Dickenson, a 25-year-old former farmer from Big Stone Gap, Va., said it was "more than likely" some of the other Americans who spurned a chance to return home would change their minds.

Has 'Own Beliefs'

"Communism is not my belief," he told a news conference. "I have my own beliefs."

Dickenson, whose parents live in a cabin high in the Alleghany mountains returned to the Allies of his own free will.

Rushed to a hospital near Seoul, he told newsmen he had contemplated returning for quite a while.

The young soldier flatly refused to answer questions that would have shed light on why he or the other Americans chose to remain with the Reds.

"I can't answer that . . . I don't know what they (the 22 others) want to do . . ."

Dickenson, appearing slightly bewildered and choosing his words carefully, asked after about 10 minutes that the interview be halted. Then he agreed to a brief appearance before newsreel and television cameras

Not Been Briefed

He said he had not been briefed by Army officers before meeting with newsmen. The decision not to answer questions was his own.

In contrast to his appearance before the newsmen, Dickenson was smiling and seemed in good spirits when he was transferred to Allied control earlier today at Panmunjom.

'Great To Be Back'

"It sure feels great to be back in the hands of the Americans," he said, grinning, to newsmen at the short transfer ceremony.

His parents, Mr. and Mrs. Van Buren Dickenson, who live in a remote cabin in the Alleghany Mountains, were joyous. His mother told a newsman, "Well, thank God . . . I knew he was coming home if they'd let him."

"If you can," she told the reporter, "I wish you would get a word to him—tell him nobody hereabouts thinnks hard of him for what he done, and we will all give him a big welcome home. Ain't no hard feelings on our part."

Dickenson was one of 23 Americans, 1 Briton and 335 South Koreans the Reds said refused repatriation to remain under Communist rule.

No Coaxing

Dickenson changed his mind with no coaxing. The U. N. command has not started efforts to persuade balky former Allied soldiers to return.

The Communist explanations to 22,400 North Korean and Chinese POWs, meanwhile, were canceled again today for the fourth straight day.

The Neutral Nations Repatriation Commission, which has custody of the balky POWs, made the announcement without details

Delegates from all five nations making up the commission sat in on the meeting and quickly validated the return of Dickenson.

Man, 23, Pleads Not Guilty of Manslaughter

John A. Knotts, 23, of Waldo pleaded not guilty to charges of second degree manslaughter in municipal court yesterday afternoon.

He was bound over to grand jury and released under $5,000 bond.

The charges against Knotts arose from an automobile-train collision Friday night which resulted in the death of Daniel King, 34, of near Marion Knotts drove the car into the side of a C. & O. freight train which was at a crossing on County Road 195, north of Marion.

Robert Massie, 40, of Morral, also charged with second degree manslaughter, is being held in the county jail pending arraignment. Arraignment had been held up until Massie obtains an attorney.

Massie was the driver of a car which was in a head-on collision with a motorcycle early Sunday morning The accident resulted the death of the motorcycle rider, Clifford L. Clark, 35, of the Werley Hotel.

Reports on Meeting

Big 3 Seeking Unifying Principles, Dulles Says

NEW YORK (AP) — Secretary of State Dulles says the recent foreign ministers meeting in London "sought unifying principles which might relax tension" in the world but "avoided platitudes without practical relevancy."

Dulles adds that what the meeting did not do is as important as what it did so, asserting:

"We did not undermine the moral strength of the free world by resort to measures of short-range expediency."

Panoramic View

The secretary of state, in a speech last night at the 22nd annual New York Herald Tribune Forum, gave a panoramic view of the talks he had at London with British Foreign Secretary Eden and French Foreign Minister Bidault. Dulles returned Monday from the meeting.

One of the chief results of the London sessions was the sending to Russia of a proposal for a meeting of foreign ministers at Lugano, Switzerland, Nov. 9

"This (proposal)," Dulles said last night, "will provide an answer to whether the Soviet government is willing to have a meeting on terms which will provide an actual testing of its intentions in terms sufficiently concrete to be significant.

Await Decision

"That is the single project now before the Soviets. Their decision in relation to that is what we now await. We hope that the answer will be affirmative. In any event it will be revealing."

Dulles said a meeting on the foreign ministers level was proposed since "it is our view that few things would be more dangerous than a meeting which produced illusion of agreement, without the reality of agreement."

British Prime Minister Winston Churchill has suggested a meeting of heads of state of Britain, France the United states and Russia.

Believed Solution

The Secretary of State made these comments on other decisions reached at London:

Trieste—"A new concept is in the making which could bury these bitternesses. It would draw Yugoslavia together with Italy and the other NATO allies in a common strategy designed to ensure the safety and well-being of south Europe. Yugoslavia cannot be sure as an independent nation without association with its NATO neighbors . . ."

The Western ministers believe their decision to relinquish the administration of Zone A of Trieste to Italy "will pave the way to a final peaceful solution."

Korea—"The division of Korea is wrong and, unhappily, there are similar wrongs elsewhere, as in Germany, but new war is not the way to right such wrongs. They should be made to respond to peaceful treatment applied with patience, persistence and wisdom."

Indochina—The ministers "welcomed" developments seeking to meet the aspirations for freedom of the people of Indochina while protecting them "from being taken over by the enemies of freedom."

Israel—"It is the United Nations which played an essential part in creating the state of Israel . . . So we agreed to join in asking the United Nations Security Council to take jurisdiction of this matter (of recent Israeli-Arab tensions)."

Special U.S. Envoy Off for Korea Meeting

WASHINGTON (AP)—Special envoy Arthur Dean leaves for Korea today to determine when, where and on what conditions the Far Eastern Communist powers are willing to negotiate about a Korean peace settlement.

Secretary of State Dulles, having directed this "practical step" to sound out the Red Chinese and North Koreans, called on Moscow, meanwhile, for "revealing" evidence of what it intends to do concretely about a settlement in Europe.

At a news conference yesterday and in a New York speech last night, Dulles made it empatically clear he is thinking only of dealing with the Reds on specific issues and that he intends to allow them no opportunity to create what he called "the illusion of agreement."

Dean, with a staff of eight advisers and assistants, is flying via

Police Quizzed Third Straight Day in St. Louis

Witnesses Ranging From Police Clerk Up In Hunt for Ransom

ST. LOUIS (AP)—Top police officials called witnesses ranging "from a police clerk on up" today in the third day of their closed-door investigation of possible irregularities in police handling of the Greenlease kidnap-slaying

Police Chief Jeremiah O'Connell, heading the panel of police officials holding the inquiry into the arrest of the kidnapers here and the recovery of half of the $600,000 ransom, indicated, however, the key witness, Lt Louis Shoulders, may again postpone his appearance

Recovered Money

It was Shoulders, acting on a tip from taxi driver John Hager, who arrested Carl Austin Hall and Mrs. Bonnie Brown Heady, the confessed kidnap-killers of 6-year-old Bobby Greenlease, and recovered about $293,000 of the ransom.

Hager was questioned for six hours by the panel yesterday.

O'Connell said he talked to Shoulders yesterday and had found him "still emotionally upset." Shoulders' physician told newsmen the officer suffered a nervous condition after overworking himself on the case.

The physician, Dr. Charles M. Bauman, said he believed Shoulders should not be questioned at this time because of his health.

O'Connell also said the inquiry might move to Kansas City to question Mrs. Sandra June O'Day, "if the FBI will let us talk to her." Mrs. O'Day, held as a material witness, has admitted staying with Hall in a St Louis County motel the night before his arrest Oct. 6

Follows FBI Action

The police inquiry here was ordered Sunday after published reports that FBI agents were investigating possible discrepancies in the police reports in their search for the missing $30,000 ransom.

Hager told newsmen before testifying yesterday that he had been

Okay on Quiz Of Spy Given To McCarthy

WASHINGTON (AP)—Sen McCarthy (R-Wis) said today the Justice Department has agreed to let him question the confessed atomic spy, David Greenglass, in the federal penitentiary at Lewisburg, Pa.

Greenglass is the man whose testimony helped to send his sister, Ethel Rosenberg, and her husband Julius to the electric chair last summer as spies. He is serving a 15-year sentence for espionage

McCarthy had asked permission to question him in connection with a new investigation of what he has called security leaks at the Army Signal Corps' Ft Monmouth, N. J., radar laboratories

McCarthy contends he has evidence that a spy ring headed by Rosenberg was able some years ago to extract secret documents from the laboratories "almost at will" and that some of the documents are now in Communist Eastern Germany. The Army said it knows of no unauthorized documents in Red hands there

McCarthy, after an inspection trip to Ft. Monmouth yesterday, said he was "very, very favorably impressed by the very aggressive steps" taken to improve security there

McCarthy said 12 persons had been suspended as a result of the security investigation but Secretary of the Army Robert T. Stevens, who accompanied the senator, interposed, "That figure is too low."

VISITING INDONESIA

JAKARTA, Indonesia (AP)—U. S Vice President and Mrs. Richard Nixon arrived here from Darwin, Australia, today for a three-day visit.

Nonpartisan Approach Made

Stevenson, Hoover Views On World Trade Sought

WASHINGTON (AP)—President Eisenhower's 17-member study commission has decided to ask the advice of Adlai E. Stevenson and former President Herbert Hoover in a search for a nonpartisan solution of the foreign trade problem.

The commission, headed by Clarence Randall of Chicago, president of the Inland Steel Corp., scheduled hearings behind closed doors today and tomorrow. It asked for testimony during the two days by Republican Paul G. Hoffman and Democrat W. Averell Harriman, former foreign aid administrators in the Truman administration

Sen. Bush (R-Conn), a member of the group, said the commission will open its doors next week for public testimony by Hoover and Stevenson, the 1952 Democratic presidential nominee.

Bush said in an interview he was impressed with an evident determination within the group to reach some sort of agreement on a new foreign trade program that might remove the issue from politics.

"It's going to be difficult to find a formula which will step up our imports and still not threaten individual American industries," he said. "But if there is an answer, I am confident the commission will find it."

Randall wrote interested national organizations yesterday inviting them to submit written statements on their views.

"The commission is anxious to have before it the views of all segments of American industry, agriculture, labor and the general public with respect to the problems

Lima Youth Killed By Shotgun Blast

LIMA, Ohio (AP)—James Boyd, 17, was killed early today when a shotgun in the hands of a hunting companion discharged accidentally. He was the son of Mr. and Mrs. J. W. Boyd.

Lima police said Boyd was sitting in a car in front of the home of Robert Hollar, 17, preparing to go on a duck-hunting trip. They said Hollar's gun fired while he was attempting to load it. The charge struck Boyd in the right chest and he was dead on arrival at Memorial Hospital.

Big Scramble in Making Over Pike Killer Reward

ALBUQUERQUE, N. M. (AP)—If a man charged with the "Phantom of the Turnpike" slayings is convicted in Pennsylvania, a grab-bag style feud may ensue in the little town of Belen, N M

There's a matter of $11,000 offered by truck companies for the arrest and conviction of the person or persons responsible for the murder of two truck drivers on the Pennsylvania Turnpike.

John Wesley Wable, 24, charged with the slayings, was captured in Belen Oct. 11 after being spotted by two young women—Caroline Smith and Midge Harmon of Belen.

For a while, everything was hunky-dory with a pat on the back and a "good work" for the girls A Pittsburgh reporter called Miss Smith and told her she would be in line for a fancy sum if Wable were convicted of the crimes

Little Belen exploded and confusion reigned.

The Belen News Bulletin, a biweekly newspaper, ran a banner story The headline read

"Eleven Thousand Dollar Reward Poses Big Problem After Capture of Murder Suspect in Belen Sunday."

The matter became a town problem. Dist. Atty. Filo Sedillo said:

"I feel everyone should claim the reward if Wable is convicted and if they had any connection at all with events leading up to his capture. This includes about a dozen people in New Mexico."

A total of about 12 persons, including police officers, were parts of the net which slowly closed about Wable as he tried to make

New Jet Fighter's Sonic 'Boom' Busts Air Base Windows

PALMDALE, Calif (AP)—The airport's plate glass windows, as well as the sonic barrier, were shattered during the first public demonstration of the Air Force F100 Super Sabre fighter plane

The successor to the F86 Sabre Jet, which won fame in Korea, traveled more than 12 miles a minute yesterday before an audience of nearly 100 persons.

Test pilot George Welch boomed through the atmosphere, and the sound barrier, at a speed exceeding 720 miles per hour in North American Aviation's new sweptwing jet.

Pressure waves reverberated with explosive force as Welch pulled out of his supersonic dives. A wooden upright, 4x4 inches, was cracked and six big plate glass windows flew apart in the airport administration building. Twenty-seven smaller windows also were broken, but a North American spokesman said no one was injured.

Fastest announced speed of the Super Sabre is 760.1 miles per hour, established recently at Salton Sea.

Nonoperating Rail Unions To Vote on Strike

WASHINGTON (AP)—Fifteen unions started the machinery today for polling one million telegraphers, clerks and other nonoperating railroad workers on whether they want to strike for a health plan and other nonwage benefits.

But a union leader indicated a strike is unlikely, at least for several months.

The unions—which do not cover engineers, firemen, trainmen or conductors—announced the strike vote yesterday after, they said, the railroads failed to accept an invitation to begin conferences here.

George E. Leighty, head of the telegraphers union and chairman of a joint negotiating committee set up by the 15 organizations, said at the same time that the unions have called on the national mediation board to step in. Generally, a strike—if authorized—is postponed when the board intervenes.

The issues in the dispute center around the health and welfare proposal and four others—longer paid vacations, pay for holiday work, overtime for Sunday duty, and a free transportation plan.

The unions, accusing the railroads of "protracted stalling," made public a letter sent to the carriers' representatives Oct. 12 in which they said they were "unwilling to countenance any further delay" in starting negotiations.

Leighty characterized counter-proposals made by the railroads as "stone age, bourbon" ideas which he said would "practically write off" seniority and other provisions in present agreements.

Classes in Square Dancing Set at 'Y'

Square dance programs for youths begin at the YMCA this afternoon at 3 30. Today's session will be for the Plebes (boys 8 and 9) in group three, the Preps (boys 10 and 11) in groups one and three, and the girls aged 8 and 9.

Another class will be held Friday afternoon when the Plebes in group one and two, the Preps in group two, and the girls 10 and 11 get together.

Marvin Ludwig, youth secretary at the "Y" said aims of the program for children are to promote fun and fellowship, create new fields of recreation, and teach skills in folk dancing.

A similar program will begin for adults Thursday evening.

Mrs. Opal Gabler, will be instructor and caller for the classes.

Nation's Fire Losses Near Billion Mark

Increase for Fourth Consecutive Year, Fire Underwriters Report

BOSTON (AP)—The nation's fire losses during 1952 crept toward the billion-dollar mark and increased for the fourth successive year, the National Fire Protection Assn. estimated today.

And the outlook for 1953 is even worse. Preliminary estimates by the National Board of Fire Underwriters for the first eight months of this year indicate an increase of about 17.9 per cent over the same period of 1952.

The NFPA in its quarterly report estimates there were 2,014,600 fires of all types in the United States in 1952, and that they caused a loss of $942,650,000. It says further:

"It is interesting to note that the number of building fires for 1952 has increased 12.5 per cent over 1951 figures, while the loss for 1952 is 7.3 per cent more than the previous year."

Here are some notable changes estimated for 1952 compared with 1951:

An 18 per cent increase in the number of dwelling fires, a 20 per cent boost in the number of school and college blazes, a 15 per cent jump in forest fires, and a 20 per cent upswing in building fires caused by smoking and matches and by lightning.

The NFPA estimates building fires in 1952 totaled 703,000 and caused 793½ million dollars damage. An additional 1,311,600 fires accounted for an estimated $149,150,000 loss. These include aircraft, motor vehicles, forest, ships, rubbish and grass fires.

Children and matches caused 22,500 fires and $8,200,000 damage. Smoking and matches caused 116,000 fires with a loss of 61 million dollars.

Lightning touched off 39,000 fires with the loss of $33,200,000, while $2,870,000 damage resulted from 2,000 fires that followed attempts to thaw out frozen pipes.

There were about 6,300 incendiary or suspicious fires causing damage of 18 million dollars. Misuse of flammable liquids, including vapor, tar, grease, started 33,000 fires that caused a loss of 45 million dollars.

TUCSON, Ariz. (AP) — Elsie, the mountain lion who loves children, tottered today between life and death.

The playful cub slipped while performing for some children last night and hit her head on a wall in the home of Floyd Miller, curator of a Tucson museum. She was paralyzed.

Elsie, probably the most-loved animal in the Tucson area, has appeared on television shows and as guest at civic luncheons.

Recently her picture, taken as she stopped softly on a small sleeping boy's back, was published in more than 500 U. S. newspapers.

Liquor Banned by Indian Village in New Mexico

ALBUQUERQUE, N. M. (AP) — Tribesmen of Acoma pueblo, the "sky city" built atop a cliff-ringed mesa west of here, turned thumbs down on sale and use of liquor on their land.

Last month, New Mexico voters approved a proposed amendment to the State Constitution doing away with the ban on selling liquor to Indians.

But the resolution made public yesterday by pueblo leaders says the Acomas will retain prohibition on their reservation.

A tribal official, Merle Garcia, said, "Repeal of the law does not automatically teach people to drink moderately."

Clarence V. Lenz Takes YMCA Post In Joliet, Illinois

A former Marion man, Clarence V. Lenz, has accepted a position as general secretary of the YMCA at Joliet, Ill., after serving in the same capacity at Alliance, O., since 1946.

Previously in "Y" work here and at Springfield, he is a graduate of Harding High School, of Western Reserve University of Cleveland, and of the George Williams YMCA College at Chicago, Ill. He is the son of Mrs. John Lenz of 327 W. Columbia St. He and his wife and two daughters, Pat and Karen, expect to be settled at Joliet by Dec. 1. Mrs. Lenz is the former Miss Alma Strauch of Crestline. The family visited here last weekend.

At Joliet, he will direct an extensive expansion program of the "Y" which serves an area of 85,000 persons, has a budget of more than $200,000, and employs 10 secretaries. There is a main "Y" building and a community branch. A building program is under way to add to the branch "Y," and addition of 30 rooms to the 108-room main building dormitory and "Y" camp construction is planned.

Before going to Springfield, he served as boys' secretary at the old "Y" in Marion. While in college, he served as a resident staff member of the Friendly Inn Settlement at Cleveland, as recreation director of the Salvation Army Settlement at Chicago, and as a staff member of the Association House there, and as director at "Y" camps.

Japan-Korea Treaty Talks Hit Third Snag

TOKYO (AP)—The Japan-Republic of Korea peace treaty talks broke down today for the third time.

Kim Yong Shik, head of the South Korean mission in Japan, told the meeting it was useless to carry on further talks. He said the Japanese refused to retract statements contending that Japanese property claims in Korea are legally justified, and that Korea's status before the peace treaty was not illegal but "exceptional."

Gravedigger Wanted To Go Pheasant Hunting

MASON, Mich. (AP)—Halloween is two weeks away, but Ingham County sheriff's men were investigating a report of some weird goings on Monday night in the North Aurelius graveyard near here.

There in the moonlight they found someone digging a grave. It turned out to be Bill Peters, the official gravedigger.

Why the night work? Peters told the deputies the grave was going to be used the next day and "I've got to get this job done so I can go pheasant hunting."

Too Much Mud

ALBUQUERQUE, N. M. (AP)—A city water truck crew stuck to its schedule and drove out yesterday to sprinkle dirt streets in northwest Albuquerque. But it didn't get the job done. The truck got stuck in mud from the heaviest rain the city has had in six months.

Wayne Cruel, Alleges Actor's Wife in Court

LOS ANGELES (AP)—Nicky Hilton former husband of Elizabeth Taylor, today was subpoenaed to explain his week-long stay last year at the John Wayne home as the guest of Mrs Wayne while the rugged movie star was in Honolulu

Wayne charged yesterday during the couple's stormy divorce trial that his wife entertained Hilton during his absence This followed an accusation by Mrs Wayne that the movie box office king once had an all night tryst with actress Gail Russell

Hilton son of hotel magnate Conrad Hilton, said he would save comment until 'I testify in court'

Atty Jerome Rosenthal, counsel for Mrs Wayne said actress Betsy von Furstenberg would testify that she asked Mrs Wayne to house Hilton while he recuperated from accident injuries Hilton and Miss Von Furstenberg were sweethearts at the time

On the stand yesterday, Mrs Wayne testified her brawny husband hit her with everything from the back of his hand to upholstered pillows during six years of Hollywood married life But they always kissed and made up she added

One reconciliation scene she said took place in a Burbank hospital She quoted the husky actor 'I know I have been a horrible jerk with you I need you very much Please give me one more chance'

Just as she was about to give in she added Wayne's press agent arrived and asked 'Shall I call the reporters?'

Mrs Wayne said she snapped "What is this a reconciliation or a publicity stunt"

She said Wayne agreed that the scene misfired and ordered the publicist out of the room by yelling that he "had spoiled everything by coming in too soon"

Wayne sat expressionless through most of the testimony, occasionally shaking his head He emoted real pain when the court awarded her attorney $2 000 more in Wayne funds to finance trial costs

"I figured at that moment' explained Wayne, "that I would have to earn $20 000 to pay that $2 000

The Vital Difference

Since the mind - changing of prisoners of war in Korea is on the verge of being given up as a bad job, perhaps something can be salvaged out of the fiasco.

Here was a direct clash between irreconcilable philosophies. The vital difference between the authoritarian doctrine of the Communist conspirators and the free-choice doctrine of popular government was clearly revealed.

Aside from the tragic possibility that popular governments may be driven by fear and anger into asserting strong-arm control over men's minds, the issue between dictatorship and freedom must be fought out on the lines laid down in the prisoner-of-war issue in Korea.

A human being has the power of decision, or he is a slave.

Only the Communists are capable of believing they have a clear right to claim a human being's mind or the forfeit of his life if he refuses to agree with them.

Only the Communists are capable of believing an individual has no right to his opinion when it is contrary to an official view.

Only the Communists are capable of practicing "brain-washing," in the sense of twisting human intelligence into a semblance of some desired form.

When free men imitate such antics or even tolerate them, they are betraying the fundamental principle of freedom, which is the right to think and to speak freely, even though in conflict with authority.

Ups and Downs

Every producer of manufactured goods and agricultural commodities is trying to make up his mind about the puzzle of our economic era:

When a boom fails to become a superboom and a superboom fails to become a super-superboom, what is it?

The superboom that happened when the Korean war added defense production to the boom which grew out of pent-up demands from World War II is not going to become a super-superboom.

Yet, there is good reason to believe that the stabilization point on the way down from the heights of inflation will be high enough to represent prosperity by any reasonable standard. Unfortunately, there is no agreement on a reasonable standard.

That is where the puzzle of this economic era comes to focus.

The ups and downs of production and consumption are inevitable. But every time there is a downward movement of economic activity someone screams that the dam has burst and everybody should run for the hills, all is lost, depression is closing in etc.

There now is a downward movement. The leveling-off point will be somewhere above the corresponding point of a year ago — and well above the leveling-off point of three years ago —but there will be no super-superboom.

Yet, it will be charged that any leveling-off at all is a symptom of economic recession; that the economic machine must be all accelerator and no brakes.

Does that make sense?

Loyalty Isn't Enough

Americans have shown, man and boy, woman and girl, more loyalty to the dairy industry than they have shown to any other segment of their economy.

They have done this because they believe in the industry's fundamental importance, because it is manned by some of their finest citizens and because they have been guided by a sure instinct of self-survival.

But mostly they have done it because the dairy industry has provided them with quality products at attractive prices. Loyalty isn't enough to keep any industry going. It must satisfy its old customers and make new ones.

It must avoid unnecessary handicaps to itself in doing the job it has shown it is capable of doing down through the years.

A few days ago, 40 directors of the National Dairy Council went on a dairy diet to show that butter, cheese and milk aren't fattening. This is the kind of sales promotion stunt that gets attention and makes friends. But in reporting the stunt, The Wall Street Journal recalled a speech made by one of the directors, who said:

"If dairy farmers themselves would eat butter instead of oleo, half our surplus problem would be licked."

There is only one reason a dairy farmer would eat oleo instead of butter—to save the difference in price between oleo and butter, which is supported at an artificially high price by a government subsidy policy which in effect is turning out to be a subsidy for a competive product.

Invisible Government

By David Lawrence

Labor Racketeers Have Headlock on Democracy

No more fantastic revelation of invisible government in America has been made in a long time than that which has just been disclosed by the acting lieutenant governor of New York State, Arthur H. Wicks, who is also leader of the Republican party in the Senate of the Empire State.

Wicks was making a speech primarily to defend himself against charges that he repeatedly visited in Sing Sing Prison Joseph S. Fay, convicted labor extortionist, but, inadvertently perhaps, he managed at the same time to tell a story of interest far beyond the limits of New York State — a story which does not necessarily exculpate him from blame, but the facts he exposed are shocking in their significance.

Organized labor will sit up and take notice as men of good citizenship in that movement recognize at once the dangers to their future which can develop if any stranglehold on the life of America, such as Wicks describes, is developed.

"The dictionary," declares Wicks, "says that democratic government is popularly determined authority which directs and restrains the actions of men. If that is so, there is more than one government in our state, that is, more than one authority directing and restraining the actions of part of our society at least.

"If you are a legislator in Albany, you would not be there long before you realized that within and under the democratic right of men to organize, the laboring men and labor interests have organized a government, that under and by their own direction, they have determined their own leaders.

"The constituted and accepted leaders of labor are the men who, with incredible facility and success, make decisions that strike across the lives and interests of all of us.

"It is impossible for any competent representative in government to be unconscious or unmindful of the organized interests of this other government."

Wicks said he felt it his duty, in behalf of the people of his district, to seek out Joseph Fay — wherever he might be — and to obtain assistance in settling jurisdictional disputes in his district because very large construction projects might otherwise be held up. Wicks declared:

"That he (Fay) was in prison, and being there was still the accepted influence of his labor group, was obnoxious to me.

"Labor chose to continue to respect his opinions while he was in jail — it was labor's decision to make, not mine. He was not my representative, but the one to whom I went for the sake of those I represented.

"And so I went to him. It was lamentable, but was it any more lamentable than it is in our national foreign policy to seek peace and society's welfare by audience with a Premier Stalin or a Marshal Tito — meeting with them, not because they are Communists, not in order to compromise our truth with errors, but meeting with them because they are, good or bad, the accepted leaders of their people who are making demands on our society?"

Wicks gave three examples of how big construction projects, involving many millions of dollars, were threatened by strikes and how in each instance Joseph Fay from his prison cell accomplished a settlement. He said that Fay "was the one man whom labor trusted and in whom they had confidence."

What a sorry story of American life. Wicks has laid bare, even though it might be mentioned that there are millions of Americans who are definitely opposed to the policy of their own government in conducting diplomatic relations with gangster governments in Moscow and Peiping.

Wicks is emphatic that he went to Fay "under no anticipation that he would expect or require any personal favor" and that Fay never asked for any.

The acting lieutenant governor says he has made no appeal in behalf of Fay.

The question that will be asked is why Fay was so willing to help the acting lieutenant governor if he didn't expect that his favorable attitude in settling strikes might win him some kind of support from the Republican leader later on.

The fortunes of Wicks in politics will be disposed of by the people of the State of New York, but the oppressive rule of a privately operated labor government is the problem of nearly every state in the Union.

For Art's Sake

By TRUMAN TWILL

A friend of mine who gets around brought me a postcard from one of his journeys — and a built-in puzzlement.

This postcard is a beautiful piece of lithographing. It is 7 by 9 inches, tastefully got up and suitable for mailing from any point in the U.S.A. or the world. That is to say, its subject matter is the kind of art that is universally understood and appreciated.

Though it is not in any way to be confused with a kind of postcard identified with furtive French salesmen, its subject matter is the beauty of the female figger when it has not been disfiggered with bad bookkeeping.

While this particular figger is not what you would call bundled up to the ears, no more of it is revealed than is commonplace on almost any beach on almost any warm summer afternoon — bring the whole family and have a wholesome time.

Yet, there can be no doubt about it — this postcard which has been bestowed on me by a well-meaning friend is purplish in its suggestiveness. It is as bad as some of the National Geographic pictures of unspoiled natives disporting themselves in their native habitats.

Except for the fact the dolly depicted is maybe 27 times handsomer and trimmer, our yummy postcard is artier in all ways than the paintings of those fat slobs of nudes who always turn up in the European versions of capital A Art.

She obviously is not the kind of a harem harlot who'd lie around on a davenport while some bleary-eyed artist did her in oil. This gal's a real Yankee Doodle lollipop with mischief in her eyes and a laugh on her lips.

Yet, there it is. This postcard is not a picture you'd frame and hang over the mantel, unless you were a bachelor.

It's not the kind you'd want to have under the glass top on your desk the day the ladies from the P-T A droped in to talk about whither youth, lest they conclude the jig was up when Cal Coolidge was in the White House.

On the contrary, it has made the cubicle in which this copy is prepared a mecca for young and middle - aged males who drop by to take a squint at the postcard from one to four times a day.

It has been drawing quizzical glances from office females who never had any reason to suspect before that behind yon facade of frustration lay a slumbering volcano of orneriness.

An order will be forhcoming almost any day from administrative headquarters to get the thing out of sight before visiting schoolchildren report to their parents that daddy should take a gander at Mister Twill's art gallery, yippee!

And the day this apears in print a lady who is no mean looker herself is going to curl her lip in a good imitation of a snarl and mutter, "Really, you old billy goat!"

All of which will not unpuzzle an *admirer of universal art who can*not get it straight in his confused head why it's capital A Art for a slob of a woman to be sprawled out in a classical painting but just a purplish postcard when a Yankee Doodle dolly gives the world a photograpic come - on from a postcard.

John G. Bradshaw is said to be the first citizen of the village of Green Camp, once known as Berwick. The first house erected in the town was a log structure, 14 by 16 feet in dimensions, and was built by John Thatcher. The building was not occupied until May 1843 when John G. Bradshaw took up his residence in it. Bradshaw at that time was running the Isaac Halderman mill on the Scioto River.

Eisenhower's Quest for World Peace

By Jay G. Hayden

Secretary Dulles in London, Vice President Nixon in the Far East, Herbert Hoover Jr. in Iran, Eric Johnston in Israel and the Arab states, Milton Eisenhower recently returned from South America.

These are only a few of the advance agents in an attempt by President Eisenhower to attain world peace and stability by aggressive firsthand intervention at specific points of disruption.

The missions of Hoover and Johnston are especially illustrative.

Herbert Hoover Jr. has taken over where his father left off before World War I, as a world-famous engineer.

An authority especially in the field of petroleum development, young Hoover was singled out by the President to try his hand at getting Iranian oil flowing after *more than two years of paralysis*, caused by former Prime Minister Mossadegh's abortive nationalization of the industry.

Hoover's function, it is emphasized, is in no way "diplomatic." He is not empowered to negotiate with the new government, headed by Premier Zahedi; nor is he carrying with him any preconceived plan for settlement of the Iranian oil problem.

Hoover's mission, a State Department announcement said, is "For the express purpose of becoming fully acquainted, from on-the-spot observation, with problems inherent in the Iranian oil situation so that he will be able better to discharge his duties as special adviser (to Dulles) on oil."

A more specific inkling as to Hoover's function may be found in an Iranian official statement a few days ago that the First essentials to getting Iranian oil flowing are $40,000,000 and 600 experts. No doubt Hoover's first job will be to examine those needs and suggest ways for meeting them.

Also, Hoover is peculiarly well qualified to deal with the entire problem of fitting resumption of Iranian oil production into an already oversupplied world market.

Similarly, Johnston, motion-picture czar and former president of the U. S. Chamber of Commerce, is working for a business solution of a peculiarly difficult interracial problem.

He is trying to remove the largely single obstacle to peace between Arabs and Israelian Jews by finding home and economic opportunity for 900,000 Arab refugees now wasting away in concentration camps.

One project Johnston is carrying with him is a plan for use of the waters of the Sea of Galilee for a sort of Tennessee Valley development — providing hydroelectric power and irrigation of new lands to be tilled by both Arabs and Jews.

Congress already has appropriated $153,000,000 for the Arab refugees, but all for emergency feeding rather than permanent solution of the problem. Efforts to persuade outside nations to accept these Arabs as immigrants have totally failed.

Latterly Congress has been balking at continuance of this relief expenditure. A report last spring by a Senate Foreign Relations Subcommittee, headed by Sen. Taft declared:

"The American people are moved by strong humanitarian motives but they cannot be expected to bear indefinitely so large a share of the burden involved in this situation when Israel and the Arab states show so little initiative in helping to settle the matter for themselves. There is a very real danger that the longer the United States continues to supply relief money, the less desire there will be on the part of the states in this area to make real efforts on their own part to liquidate the problem."

Johnston's purpose is to show Israelites and Arabs how to solve the situation, with advantage to both of them, while at least relieving the U. S. of the job of keeping Arab refugees, presently increasing their numbers in idleness.

President Eisenhower announced that he had assured Johnston "full support" and the "widest possible latitude" in dealing with the Jewish-Arab conflict.

Dulles' first aim in going to London may have been to ease the *threatening Trieste situation*, but much more in his mind, in all probability, is the differences between the Western powers as respects future negotiation with Russia. Particularly, he wants to insure Germany's participation in the Western European Defense Force before offering a mutual-defense treaty or any other major concession to the Russians.

Like Hoover in Iran and Johnston in Eastern Asia, Vice President Nixon, on his tour of the Far East, is searching for ways and means for specific aid to each of the nations visited at a minimum of cost to United States taxpayers.

And Milton Eisenhower already has pursued that same quest throughout South America.

Material at Cut Prices

By ANTONY TERRY

BONN, Germany has opened a $3,000,000 shopwindow here for military equipment which it is offering to the NATO countries at cut prices.

The shopwindow is situated in a piece of waste ground near the Bonn government's Houses of Parliament. The land belongs to the West German Ministry of Supply.

Two years ago it was used to house a "hush-hush" project started by a private firm for making artificial diamonds. The scheme turned out to be a fraud and the "inventor" was jailed.

Recently heavy trucks and field kitchens rolled over the ground, closely guarded by armed militiamen and police dogs and hidden from prying eyes by high steel fences.

As they churned up the ground official Allied observers nicknamed the testing area "Germany's Salisbury Plain."

Officials took every precaution that no unauthorized person got a chance to see what is Germany's first big comeback in the production of military equipment.

For the time being no guns or tanks or actual weapons are being offered for sale. But one of the "hush-hush" exhibits is a life-size rubber tank that can be inflated and used as a dummy in military exercises.

Two hundred German manufacturers hope for big export orders to NATO countries as a result of the show. In many cases the goods they are demonstrating represent a big gamble.

Some firms have secretly developed and produced such equipment as radar "on spec," without knowing whether Germany would be allowed to manufacture and sell it.

Today the gamble looks like it has come off okay.

The German firms are out to win big export markets with pontoon bridges, Geiger counters for detecting dangerous radioactivity after atomic bombs have been exploded, and infrared invisible ray projectors that enable troops to "see" in the dark up to six miles.

One of the firms is showing a new underwater radar equipment that will detect and pinpoint even fishes at a distance of 2,000 feet below the surface.

Another is showing a "front line" printing press said to be able to turn out maps and artillery firing plans under "actual battle conditions."

Opening the exhibition West Germany's minister of economics Dr. Erhard announced the lifting of all controls on the latest of Germany's new export industries. He said the government would later fix prices for tanks, guns and other armament when these are again manufactured by German firms.

The 500 exhibits on show range from army boots, water bottles, gas masks and uniforms to cross-country vehicles for towing heavy guns.

The Court and the Jackpots

The legality of airwave giveaway programs, on an appeal by the FCC from decisions by lower courts, is being argued before the Supreme Court of the United States. It will be interesting to see if the court can come up with the right answer. Anyhow, the case should be heard in the mood of the quiz programs with a master of ceremonies:

Court Clerk—Good morning. I have a very interesting group on today's program. They're the justices of the Supreme Court.

Emcee—Welcome to this session, boys. You look like very fine gentlemen. What's your business?

Justices—We're jurists.

Emcee—Jurists, eh! That's very interesting. The lack of applause is due to the fact none of you is from Brooklyn. Well, I remind you that if you say the lucky word . . . beg pardon . . . that's another program. The jackpot question has been submitted by the Federal Communication's Commission, to which we are sending a year's supply of shaving cream. The question is this: Are quiz programs a lottery or any other form of gambling prohibited by law or otherwise properly subject to veto by the FCC? Remember you have only ONE YEAR to reach your decision. No prompting, please.

A Justice—Why can't we have easy questions like everybody else?

Emcee—After all, verroner, how would it look to ask the Supreme Court for the right answer to a simple question such as 'Is a quorum a musical instrument, a tropical bird or a group of people?'"

Justice—We handed down a decision in that matter at our last session.

Emcee—Yes, but it was a tie with a couple of absentions.

Counsel for the FCC—If it pleases the Court, may I rise to repeat our contention that the quiz program is being overdone, that it has gambling aspects and that the commission ban should be respected.

Counsel for Radio Interests—The quiz program has become an American institution, sacred to millions. The jackpot stands as America's key to happiness. To interfere with it will kill morale and bring on mass unemployment.

Second Justice—How would it bring on unemployment?

Counsel—Because there are millions of Americans who do little else than participate or listen.

— —

Third Justice (impatiently)—May I call the attention of boths ides that there is a grave omission here . . . there's NO ORCHESTRA!

Emcee—Why an orchestra?

Justice—In any issue relating to quiz programs an orchestra plays a tune and there's a chance to identify it.

Fourth Justice—That's right. I remember in the last case of this kind we stood five to four that the selection was "Tea for Two" but were unanimous about "Kiss Me Again."

Fifth Justice (much later)—I suggest we adjourn. Let the counsel file further briefs . . . AND ON BOXTOPS!

So many airwave notables are working for automobile companies that we got a little confused the other day in our search for a good used car and told the salesman, "Groucho, Sullivan, Berle and Dinah Shore sent me."

News of Other Years

TEN YEARS AGO — It was Thursday, Oct. 21, 1943.

A fleet of RAF bombers, out for the eighth time in October, had smashed at the German's second line of industrial defense, hitting Leipzig where many of the Ruhr's bombed-out industries had been moved.

Mrs. Kathryn J. Sarter, 64, of 646 Windsor St., died in her home.

James M. Herring of 628 E. Center St. and Carl W. Pierce of 533 Blaine Ave. had left Marion for Camp Perry, Williamsburg, Va., where they were to undergo boot training preparatory to service in the Navy's Seabees.

Granville Twyman Crizer, 74, of 504 Wilson Ave., died in a rest home on Lee St. after an illness of three years.

Mrs. G. F. Bechtel of 277 W. Columbia St. received word of the death of her son-in-law, First Lt. Thomas L. Gordon of Detroit, Mich., who was killed in action Sept. 26.

The C. E. Skives family, consisting of six children ranging in ages from two to 12, were left with only one front room of their home when fire destroyed the back part of the house at 670 Lee St.

A daughter was born to Mr. and Mrs. Clyde Rettger of near Marion.

An anniversary dinner and formal initiation was held at Hotel Harding by members of Zeta Theta chapter of Alpha Iota, International business women's sorority, with Mrs. Gladys Arter as guest speaker welcoming in Miss Rachel Baker, Miss Jo Ann Creasap and Miss Patricia Heilman as new members.

TWENTY YEARS AGO — It was Saturday, Oct. 21, 1933.

A news dispatch from Moscow reported that Russia hailed as a boon to world peace and to better trade relations its agreement with the United States to negotiate concerning American recognition of the Soviet Union.

Mr. and Mrs. Philip Malo of N. State St. were in Toledo to visit relatives and also to attend the Ohio State-Michigan football game at Ann Arbor.

Joseph Mighl, 83, former city employe, died at his home on Glad St.

Families of members of the NLI Club attended a Halloween party at the home of Mr. and Mrs. Blaine Swisher of Lee St.

Miss Hazel Ebling of Charles St. entertained for the pleasure of Misses Ulah and Blanche Price of Detroit.

Miss Ferol Burley, student at Centre College at Danville, Ky., was spending a few days with her parents, Mr. and Mrs. W. B. Burley of S. Grand Ave.

Findlay High School defeated Harding 33-12 with Whitcum and Frasier scoring the only Harding touchdowns.

World Picture Unchanged

Prospects for Peace No Closer as Winter Nears

By JAMES MARLOW

WASHINGTON (AP)—To no one's surprise, this winter will probably be like last winter and others before it with world peace no nearer and the United States and Russia working feverishly on the hydrogen bomb.

At the moment attention is being given an invitation sent the Russians Sunday by Secretary of State Dulles, Britain's Foreign Secretary Eden and France's Foreign Minister Bidault after a three-day London meeting.

They invited Russia's Foreign Minisiter Molotov to meet with them Nov. 9 at Lugano, Switzerland, to talk about settling their differences over Germany.

Dulles said last night this invitation to Moscow is a test of Russia's intentions in the matter of peace with the West. But there was no excitement when the invitation was sent.

The foreign ministers were expected to do what they did. This invitation was the latest in a month-long series of notes about Germany exchanged between the West and Russia. In the State Department and overseas, there has been widespread doubt the Russians would accept. If they do, it will be more startling than if they don't

Even if Molotov showed up at Lugano there'd be no reason to expect a settlement on Germany, since other meetings on the subject since World War II failed.

The West wants the Russians to let East Germany, which they run, be unified with West Germany. In other words: a united Germany. The Russian reasons for wanting no such thing now are obvious

If they had been able to turn the East Germans into such fervent Communist sympathizers that once Germany was united, Communist Germans could take over the country, a united Germany now would be all in Russia's favor.

But the contrary is true. East and West Germans have showed their hatred for the Russians, the East Germans by their June riots and the West Germans by the stunning vote to re-elect pro-West Chancellor Adenauer in September.

At the moment the Russians and their East German Communist agents are reported working hard to make the East Germans like them better, by giving them better treatment, while tightening secret police control to wipe out active opposition.

For some weeks there has been talk that the West was considering offering Russia, in return for a united Germany, some kind of nonaggression pact to assure her against future attack.

But that idea, too, is being talked of skeptically now. Here are some of the reasons why the West might be less than smart in agreeing to a nonaggression pact now:

The Russians would honor it only so long as it pleased them; the West might be lulled into a false sense of security by such an agreement, thus slowing up its own defense program and making itself an easier target any time Russia wanted to tear up the pact; there is no need for a special nonaggression agreement with Russia since Russia and the West are all in a gigantic nonaggression pact anyway through their membership in the United Nations.

That the United States is relying on the European defense program—a single European army—as the present most important step in dealing with Russia seems clear enough from the efforts this country has been making to get the single army established.

This is in accord with the basic policy the United States has been pursuing for years: develop the strength and ability to retaliate fast that will make Russia finally realize any attack might be disastrous and that she had best begin talking peace in earnest.

Last April President Eisenhower laid down a rule for dealing with Russia which Dulles last night plainly showed he is following carefully. Eisenhower told the Russians to show they meant peace by deeds.

Dulles said he wants to deal with the Russians one step at a time and said their agreement to meet at Lugano would be a test of their intentions, or a step toward peace by a deed instead of talk.

Clevelander Shoots Wife, Wounds Self Following Dispute

CLEVELAND (AP) — In an argument with his wife, Charles Barnes 35, shot her to death with a revolver then critically wounded himself late last night, police said.

Detectives said neighbors told them they heard an argument going on between Barnes and his wife, Willa Mae, 30, shortly before the shooting. The cause of the dispute was not ascertained.

She was dead on arrival at Lakeside Hospital, and Barnes was taken to the prison ward of City Hospital with a bullet in his neck.

The bituminous coal mined in the U.S. last year would make 13 "super highways" across the nation one foot thick and one-quarter mile wide.

Ohio's Sesquicentennial was observed by a program of music when the Lecture Recital Club Study Group met Monday evening at the home of Mrs. James C. Woods on Vernon Heights Blvd. The hostess was assisted by Mrs. William J. Thomas. Mrs. E. W Warwick, president, and Mrs. Harry Mautz served at the luncheon table which was decorated with an arrangement of yellow chrysanthemums.

Preceding the program in charge of Mrs. Stewart Vermillion and Miss Mary Heminger, a report on the recent Lecture-Recital Club board meeting was given by Mrs. Warwick. Hymn for the month was listed as "God of Our Fathers." It was announced that Mrs. Harry Barnhart is a new life member of the National Federation of Music Clubs, local chapter.

For the program, important residents of Ohio throughout the history of the state, both men and women, were listed, and music belonging to the period of the lifetime of each was presented. Those taking part included Mrs. C. E. Lockwood and Mrs. Merle Lashey Jr., and Mrs. Raymond Pierce as vocal soloists.

"Beautiful Ohio" was sung by Mrs. Lockwood and chorus following second verse was by the group with obligato part by the soloist. Mrs. Lashey presented "All Through the Night." Piano music by Mrs. Woods was "Excerpts from Paul Revere's Ride," followed by solo by Mrs. Lashey, "One Sweetly Solemn Thought." The group sang "Old Black Joe" and "Comin' Through the Rye." A piano transcription of "Onward Christian Soldiers" was presented by Mrs. Woods. Mrs. Lockwood sang "Rose of No Man's Land," and Mrs. Pierce sang "Who" from the musical comedy, "Sunny."

A number composed by Mrs. H. K. Mouser, "Hail Ohio," was sung by the group, and selections from a booklet, "Songs of Ohio," were included. The booklet was compiled from songs submitted in a special contest conducted by an Ohio industry. Miss Arlene Houpt will be hostess for the next meeting.

State and District Officials Guests of Marion Federation

Mrs. Desso T. Mitchell, president of Central District, and Mrs. George Deckman, chairman of the spiritual and moral values committee of the Ohio Federation, both of Columbus, were guests at the October meeting of the Marion County Federation of Women's Clubs Tuesday in the Women's Club Home.

In keeping with the Federation's planned budget, a contribution of $25 was made to the Marion County United Appeals Campaign and business included the endorsement of an amendment to provide for the establishment of a state board of education to be voted on in the November election. Mrs. Merle Hamilton spoke on the United Appeals Campaign now in progress and the proposed state amendment was presented by Mrs. Lester L. Dickey, education chairman.

Mrs. Mitchell presented memberships in the State Federation to the Marion Federation's first Junior group, the Art Appreciation Club, and the Fortnightly Study Club, both recently enrolled in the state organization. The junior club's certificate was received by Mrs. Richard Curran, president, and Mrs. Howard W. Crissinger, president of the Fortnightly Study Club accepted her club's certificate. Mrs. Mitchell also gave highlights of the District Conference to be held Oct. 27 at Newark and urged the clubwomen to attend. She also announced the dates for the state convention which will be held April 27-29, 1954, at Columbus.

Mrs. Deckman cited the life of the Bible character, Dorcas, as a challenge to clubwomen today in providing a heritage for generations to come.

Mrs. L. D. Hamilton of the fine arts committee, reminded the clubwomen that the first week in November is art week and asked that clubs include an art program in their year's study. Mrs. B. N. Salzman, American Citizenship chairman, called attention to the forthcoming election and urged the women to study local issues. Mrs. Forest Flockencier told of plans for the restoration of Independence Hall, a nationwide project undertaken by the general Federation of Women's Clubs. County and city school children have been asked to participate in the movement and containers are to be placed in schools for their contributions. Prizes are to be awarded in essay contests for grade and high school pupils. Federations contributing $100 will have their names enrolled on a plaque to be placed in the hall.

Mrs. U. A. Hootman, chairman, brought the members up to date on the United Nations, Mrs. Henry A. Mickley reported on the Pan-American Scholarship student and Mrs. C. H. Lindsey spoke briefly on the magazine, "Inside Ohio" which will feature Marion in the November issue. Mrs. Lewis Uhl reported on the revision of the Federation by-laws now in progress and asked that members contact the committee if they have any suggestions. Miss Helen Bowe, chairman of sales of articles made by the blind of the state, urged the clubs to hold their sales early and keep the local federation at the top of the list in point of sales.

An invitation was received from the Women's Committee of the Farm Bureau to attend a meeting on "World Friendship and United Nations" to be held Oct. 26 at the Wesley Methodist Church.

Announcement was made of the first Federation meeting on Nov. 19 when Miss Dorothy Fuldheim of Cleveland, widely-known news analyst and radio commentator, will be the speaker. The meeting will be held in the YMCA at 8 P.M.

Mrs. J. Edwin Probst, president, presided and the meeting opened with the group singing the hymn of the month, "For the Beauty of the Earth" Mrs. Tim Wyant directed the singing with Mrs. Henry A. Mickley as accompanist.

Pains, distress of "those days" stopped or amazingly relieved in 3 out of 4 cases in doctors' tests!

New Lydia Pinkham's works. It has a "calming" and soothing effect on the uterus . . . quieting the contractions (see the chart) that so often cause menstrual pain, cramps, other distress.

• Here's wonderful news for women and girls who — *each month* — suffer the tortures of "bad days" of functionally-caused menstrual cramps and pain — headaches, backaches, and those "no-good," dragged-out feelings.

It's news about a medicine famous for *relieving* such suffering!

Here is the exciting news. Lydia E. Pinkham's Vegetable Compound — gave *complete* or *striking* relief of such distress in an average of 3 out of 4 of the cases in doctors' tests!

Yes! Lydia Pinkham's has been proved to be *scientifically modern in action!*

This news will not surprise the thousands of women and girls who take Lydia Pinkham's regularly and know the relief it can bring.

And it should encourage you (if you're not taking Lydia Pinkham's) to see if your experience doesn't match theirs . . . to see if *you*, too, don't avoid the nervousness and tension, weakness, irritability — and pain — so often associated with "those days"!

Remember Pinkham's, too — if you're suffering the "hot flashes" and other functionally-caused distress of "change of life."

Get Lydia Pinkham's Compound or *new, improved* Tablets with added iron *(trial size only 59¢)*. Start taking Pinkham's today!

New Pumper Truck Topic at Meeting Of Galion Council

Special to The Star

GALION — One of several items discussed in a short session of City Council, Tuesday night, was that of the purchase of a pumper truck for the Galion Fire Department, available under the Civil Defense program whereby the federal government provides part of the funds for the pumper

Following a discussion on a report by Councilman J. W. Garis of the possibility of securing the pumper, it was decided that Fire Chief John Durtschi make further investigation. It is understood that the government will furnish $7,148 for the pumper that the government has available, and the city must match this amount The question before council was whether or not the government would allow this much if the city found it desireable to purchase another make of pumper instead of the one recommended by the Civil Defense program.

Council adopted a resolution waiving the right to file liquidating damages for a time over run on the contract between the city and Cunningham and Wise, Inc., for construction of the runway at the Galion-Crestline Airport.

MOTORIST ARRESTED

Police Report Three Minor Auto Mishaps

No One Injured in City; State Patrol Free of Accidents

Three no-injury accidents were reported today by Marion City police. Highway patrolmen from the Marion post reported no accidents during the last 24 hours in their district.

The first city accident happened at 8:58 p.m. Tuesday near the corner of W. Center St. and Oak St. Cars driven by Mrs. Lucille E. Porter of 292 E. Center St. and Joseph A. Phelps, 39, of 340 W. Church St. were damaged.

Police reports indicate Mrs. Porter's car was stopped and was struck in the rear end by the Phelps car. The front end of the Phelps car was damaged as was the rear of Mrs. Porter's car.

Another accident happened at 10:25 p.m. Tuesday in front of 181 N. Main St. In this accident, police report the left rear end of a car driven by Clarence Austin Jr., 29, of Ruth Ave. was damaged in a mishap with the car of Carolyn S. Byrd, whose address was listed as 135 Wallace St. No report of damage to the woman's car was made. Damage to Austin's car was described as minor.

The third accident happened this morning at 12:15 at W. Center St. and Kenton Ave. According to police reports, the right rear fender of a car driven by Richard H. Parker, 18, of Nevada, and the left front fender of a car driven by Daniel J. Foley, 16, of 443 Milburn Ave. were damaged in a collision as both cars headed west.

In Tuesday's Star it was reported that a car driven by Clifford Ozias of Columbus was damaged when struck by one driven by James L. Brimnfield of 366 Waterlon St., who was backing his car on W. Center St. Police reports indicate only that the two cars collided and do not show that Brimnfield backed his car into the other, as yesterday's article stated.

Tokyo and Seoul to Panmunjom. He will talk with U. S. military and diplomatic leaders in Tokyo Friday and with President Syngman Rhee and U. S. officials in Seoul Saturday. He will go to Panmunjom to meet with Red Chinese and North Korean representatives Monday.

In preparation for the mission, Dean met yesterday with representatives of the 15 other U. N. members which fought in the Korean War. He will be representing all of them in his talks with the Reds on arrangements for a Korean political conference.

No Power To Negotiate

The Reds have served notice they will again insist on inclusion of neutral nations. State Department officials said Dean can listen to what they have to say but cannot negotiate on this issue.

Dulles discussed in take-it-or-leave-it terms a proposal for negotiations with Soviet Foreign Minister Molotov on Germany. Foreign Secretary Eden, Foreign Minister Bidault and Dulles agreed on the offer in London last Saturday. They proposed to meet Nov. 9 at Lugano, Switzerland.

"That is the single project now before the Soviets," Dulles said. "Their decision in relations to that is what we now await, we hope that the answer will be affirmative. In any event it will be revealing."

DITCH HEARING SLATED

Date for the hearing of assessments on the Claridon Heights ditch on Kensington Pl. has been set. Hearing will be Nov. 12 at 10 a.m. County commissioners set the date Monday. The ditch is petitioned for by Arthur H. Larson.

Sound Economy Forecast by Ex-Governor Cooper

Tells Exchange Meeting Administration Has Made Progress

Approximately 75 Marion Exchange Club members and guests heard former Ohio governor and past national Exchange club president Myers Y. Cooper of Cincinnati in an address on "Preserving the American Way" at a luncheon in his honor Tuesday afternoon in Wesley Methodist Church.

Speaking on the Exchange Club and the government, Cooper told his audience "I sincerely believe that we are heading toward a sound economy with something better than synthetic prosperity. The American people have a right to feel confident over the outlook. There is going to be no panic and there is going to be business as usual if I understand the trend of events in our national economy, and I think I do," Cooper said.

Exchange Club and Harding High School officials are shown as they took part in the formal dedication of the Freedom Shrine to Harding High School Tuesday morning there.

John W. Salisbury, district Exchange Club governor, is presenting one of the documents from the Freedom Shrine to Gilbert Herr, president of the Harding High School student council.

Seated in back of them in the front row are L. L. Dickey, city superintendent of schools, Darl Gatchell, assistant principal at Harding High school; Cecil Gabler, Harding principal; George Connley of Wauseon, state Exchange Club president, Myers Y. Cooper of Cincinnati, the speaker; Fred Schultz, Marion Exchange Club president; and Rev. W. L. Stafford, pastor of the Wesley Methodist Church.

Exchange Club members standing in the back row are Frank W. Phillips, Jack Kratzer, Carl Haberman, Clifford Indoe, Jack Arter Jr., Malcolm Severns, Carson Cook, Ed McAndrew, LeRoy Schneider, Harley Walker, Luther Amrine, Fred C. Bender, Gale D. Ireland and Ray C. Harper.

COOPER TOLD the group, "I have heard businessmen of affairs say they leave politics to the politicians, and you would be pretty safe under such circumstances provided a politician is what he ought to be, a man interested in good government. But we are practical enough to understand that politicians need help to improve conditions that whether you take a personal interest in politics or not, it certainly is taking considerable interest in you—regardless of your political affiliations.

"The greater the interest of people in politics, the more certain it will be they will receive the kind of government that they want and deserve," Cooper pointed out. He added that "the people are tired of too much government by experience. Centralized control, resulting in bureaucracy, takes the tax dollar to Washington where they frisk it and what is left you get back home for your local need."

Cooper was in Marion for the formal dedication of the Freedom Shrine, a series of 28 famous American documents, to Harding High School. He spoke to its student body there earlier Tuesday morning, after which he was taken on a tour of the city by Exchange Club members. Presentation of the Freedom Shrine to United States' high schools is a national project of the Exchange Club.

IN HIS AFTERNOON talk Cooper quoted a statement by Abraham Lincoln that in all the people can do for themselves, the government ought not to interfere. Cooper said that instead of following this "sound philosophy we have all too frequently embraced a new liberalism, which, when analyzed gives the tax spenders the right to an orgy of spending, narrowing the scope of individual benefits and increasing taxation beyond the ability of the people to pay."

"No country on earth can even approach progress made in America," he continued. "Indeed this nation has accomplished more in 177 years than has been accomplished by the whole world in 6,000 years. This great growth is due to the fact that our forebearers gave us a pattern wherein the individual could make the most out of his life and reap the rewards of his efforts.

"We call this pattern the free enterprise system and today that system is the envy of the world. England and France and some other European countries have been trying out the socialistic doctrine of statehood. I saw it at first hand and everywhere you realize that this doctrine was nothing more or less than creeping paralysis. I think they have finally awakened to what has happened to them and they are trying hard to get back to conservative government again, but it is going to be difficult. We have to avoid the socialistic and communistic road unless we are willing to surrender liberty. We must hold on to freedom which has been responsible for our national character."

COOPER TOLD the audience that "it is well to remember that each generation must win its own freedom by holding on to that which is good. It seems to me that the best slogan that could be used from this day forth would be 'Wake up America - It's worth saving.'"

"For the first time in 20 years we have seen a definite effort made to cut the cost of government and it is succeeding," he said. "It is assuring therefore that the government at Washington has set out to cut the cost of Federal spending by reducing the budget 14 billion dollars for the fiscal year. This program of sound economy will be felt by the end of that period to the advantage of every taxpayer in the land.

"If you will turn back the pages of history to the early 20's when Warren Harding was president, you would see that constructive and courageous action was taken to reduce taxes and debts in a time when the economy was in considerable trouble following World War I."

"I hold no grief for the present administration, but I do manage to keep up with what's going on, and I feel certain we have gone as far down the lane of excessive spending as we will go. The situation in that respect is on the mend. I hear complaints because Eisenhower didn't cut taxes and pay debts the first six months he was in office, this despite the fact he inherited billions of unpaid bills and a debt of 270 million that had to be serviced. There is encouragement in the fact that 100,000 people have been relieved from the public payroll who were not needed, public expenditures are being reduced whereever possible, but it is well to remember that you do not stop a spending orgy built on an inflation program overnight. You can have a lot of fun spending borrowed money, but debts have a way of falling due, and that's something different."

COOPER TOLD the group that "it was my privilege to dedicate the Freedom Shrine at the Harding High School this morning and I want to congratulate the Exchange Club for this fine contribution to the high school boys and girls."

"You could not help but be proud of the fact that our National Exchange Club has been fighting communism day in and day out to preserve the American way of life." Cooper told his audience, and added, "If our organization had no other mission than to hold high the banner of freedom, protecting individual rights, then our membership in Exchange would indeed be well worthwhile." Then he told the group that this is only a part of the important program engaging our National Exchange Club with its 50,000 members and 1,285 clubs located throughout the country."

SEATED AT THE speakers table were John W. Salisbury, district Exchange Club governor; Cecil Gabler, Harding High School principal; L. L. Dickey, superintendent of city schools; Fred Schultz, president of the Marion Exchange Club, who presided at the luncheon; Mrs. George Conley of Wauseon; George Connley of Wauseon, state Exchange Club president; and Rev. W. L. Stafford, pastor of the Wesley church. A brief talk by Connley was followed by the playing of "Hail Ohio" on the piano by Mrs. Carl Haberman. The song, written by Mrs. H. K. Mouser of Coral Gables, Fla., formerly of Marion, was dedicated to Cooper on his inugration in 1929 and first played then.

Mrs. LeRoy Schneider, who along with Mrs. Mouser is a life member of the National Federation of Music Clubs, presented the revised music copy of "Hail Ohio" to Cooper. He resides across the street from the Mouser home in Florida when vacationing there.

Cooper was governor of Ohio from January 14, 1929 to January 12, 1931, and was national Exchange Club president in 1947 and 1948.

BPW Members Participate in District Event

When 15 members of the Marion Business and Professional Women's Club attended the annual meeting of BPW District 6 Sunday at Newark, three from the local group had a special part in the program. Business sessions were held in the Cherry Valley School there.

Taking part in the program from Marion were Miss Marjorie Williams who enacted the role of membership chairman in a program co-ordination demonstration and conducted a workshop following with the assistance of Miss Florence Matthews and Miss Peg Potter. Luncheon was served at Hull Place in Newark.

Miss Helen Reisinger of Cincinnati, second vice president of the Ohio Federation of Business and Professional Women's Clubs, was guest speaker. Her topic was "Looking Ahead With The Federation."

Other members attending from Marion were: Miss Janet Geddis, Miss Lodemia Weaver, Miss Kathryn Lusch, Miss Helen Hutchins, Miss Margaret Messenger, Mrs. Bess Stark, Mrs. Florence Tennis, Mrs. Lucille Osmun, Miss Juanita Cogan, Miss Dorothy Haynes, Miss Sally McGrew, and Miss Mary Martha Luke.

"hounded so much by this thing that my wife has become a nervous wreck." He added:

"All this because I decided to tip off Lt. Shoulders. It's gotten so I wish I had never called the police. And you can bet your bottom dollar I won't call them again on anything."

Hager also reaffirmed to newsmen that it was he who registered for Hall at the Town House apartment-hotel—where Hall later was nabbed on Hager's tip that he was armed and on a spending spree.

Mrs. Jean Fletcher, on duty at the hotel desk at the time, has said it was neither Hall nor Hager who registered for the room. She was a witness yesterday.

Other Witnesses

Other witnesses yesterday included Patrolman Elmer Dolan, who accompanied Shoulders in Hall's arrest. Both have said Shoulders left the station in his private car after Hall was booked.

Shoulders did not mention his absence in his written report.

Mrs. Heady and Hall are held in Kansas City on federal kidnaping charges.

Yesterday a lawyer, Harold Hull of Maryville, Mo., conferred with Mrs. Heady but said later he had not decided whether he would represent her. He indicated that if he took the case he would attempt to get a federal court order for Mrs. Heady to undergo a psychiatric examination before her trial. Hall has not had counsel.

Ike

firm yes, but did not elaborate, when asked if he had discussed with Secretary of State Dulles the cutting off of economic aid to that country.

Dulles announced yesterday the United States is withholding further aid because Israel will not accept a U. N. ruling as to diversion of Jordan River water.

Mainly, today's news conference centered on the drought, falling farm prices and related matters with which the President concerned himself during his recent visit to the Midwest and his swing to the Rio Grande.

The President did say, in another connection, however, that while the general cost of living has continued to rise it is levelling off to a considerably greater extent than in recent years.

Eisenhower appeared momentarily taken aback, but then laughed, when a reporter asked him point blank what he thought of Sen. Young's statement that Benson should resign.

Speaking in a serious vein, the President said he believes it is his own responsibility to decide who his principal advisors are going to be.

He went on to say he knows no one more dedicated than the agriculture secretary to American principles.

Moreover, Eisenhower said, he knows of no one more anxious to get a fair treatment for consumers and producers alike. And, Eisenhower declared, just because Benson can't produce a miraculous cure for farm problems he, for one, is not going to be critical of the secretary.

Eisenhower, at the outset volunteered the comment he was deeply gratified that the drought state governors with whom he met in Kansas City had agreed on a program of federal-state cooperation to relieve their emergency conditions rather than seeking to depend on federal aid alone.

He said this principle of federal-state cooperation was being extended by the governors in working out a long-range program for coping with any future disasters.

Halloween Pranks Damage 2 Homes

Three more incidents of pre-Halloween pranks were reported today by Marion police. At 7:48 p.m. Tuesday, it was reported to police that children were throwing rocks onto a porch at 258 Silver St. At the same time, a report was made that a window was broken at 177 Silver St. by a rock.

Twelve minutes later, police received a call from the home of Clifford Bibler at 524 N. State St. that a rock had been thrown through a three foot by four foot front window of the house.

At 10:13 p.m., a call was received from Garfield Park where someone reported children were damaging the bleachers. Police investigating the call, found no loss resulted.

Former Marionite Promoted by Erie

Edwin J. Robisch, a former assistant trainmaster of the Kent Division, Erie Railroad, with headquarters in Marion, has been promoted to superintendent of the Allegany - Bradford - Meadville and Buffalo & Southwestern divisions, with headquarters in Salamanca, N. Y. Assuming the position on Dec. 1, he will succeed T. E. McGinnis, who has been advanced to superintendent of the Mahoning division at Youngstown.

Starting with the Erie Railroad as a yard clerk 25 years ago, he has held various positions since then, the most recent being as assistant superintendent of the Marion, Ind., division, with headquarters in Chicago. He was in Marion, O., one year as assistant trainmaster, in 1943.

Three Men Arrested By Marion Policemen

Three persons were arrested during the past 24 hours by Marion police. All three were being held this morning in city prison.

Ralph Elmer Greer, 19, of near Marion was arrested on N. Main St. Tuesday night at 7:53 and charged with disorderly conduct. Otto C. Miley, 53, of 706 N. State St. was also arrested Tuesday night. He was charged with intoxication and disorderly conduct.

At 4:25 this morning, Joseph R. Hennessee, 34, no address listed, was arrested near Chivington Auto Sales on N. Main St. he was being held on a suspicious person charge.

good his escape. But Miss Smith and Miss Harmon were the ones who actually spotted the wanted man and whose up led to his capture.

"We've done nothing about the reward," Miss Smith said. "All we know is what the newspapers stated and what a Pittsburgh reporter told us over the telephone.

"I feel like I'm on exhibition. Everybody looks at us all the time. And everyone's talking. No one know what's going on."

Rumors that several Belen peace officers saw lawyers to find out their chances of getting in on the money appeared groundless after checking.

A spokesman for one of the three companies offering the reward said in Pittsburgh his company will pay money without a claim being filed upon conviction. He said the money would go to those designated by proper authorities. Spokesmen for the other two companies could not be reached for comment.

At any rate, Belen once was a quiet town. Now—well, it just goes to show what prospects of a little money can do.

County School Heads Discuss New State Law

Executives Meet at Green Camp Building, Study Music Program

Local school executives from the 12 county schools studied new legislation at their monthly meeting Monday in the new Green Camp elementary school with County Superintendent of Schools D. T. Mills and Ivan Barnhart, assistant county superintendent.

One item discussed was the new law which requires local school districts to file statistics on each school child at the close of the school year. Also discussed was the music program in the county schools, a possible visitation by personnel from the state health department to the schools, and the increased enrollment as it affected the teachers, bus drivers and classroom facilities.

The school executives went on record as favoring a visit by the state health department. It was announced that the annual OEA teachers conference for Central Ohio would be held in Columbus Oct. 30 and the new foundation law for schools was discussed. Mills told the executives what schools would gain under the law passed by the 100th general assembly which becomes effective in January, 1954.

Mrs. U. E. Hootman of near Marion and Mrs. Ashley Booth of Marion were there representing the repair of Independence Hall in Philadelphia and presented a plea for the help of the schools.

The group will meet again Nov. 16 at 3 p.m. in the new Caledonia elementary school building. School legislation will be discussed and Mills will report on plans expected to be followed in adopting new textbooks, arithmetic for kindergarten through the eighth grade and English in the elementary field.

Bucyrus Eagles Set 50th Anniversary Banquet Tonight

Special to The Star

BUCYRUS — A double celebration will take place tonight at the Eagles Lodge here when the organization holds a banquet, marking the 50th anniversary of its founding and also as a tribute to charter members of the organization.

Only six of the 81 original charter members still are living. They include Clarence (Dutch) Metzger and Victor Nussbaum, both of Bucyrus; C. J. Bonath, residing in California, Charles F. Bonebrake, Springfield, O., J. O. Harriger, Orrville, O, and C. G. Scheib, a Texas resident. Robert Kessler, lodge president, said Metzger and Nussbaum expect to be present at the banquet.

Guest speaker will be Paul N. Hoffman of Tiffin, state president of the lodge. The dinner will be served by the ladies' auxiliary of the lodge.

which it is studying," Randall said.

Because the commission hopes to report to Congress early next year, he said, it will be impossible to hear witnesses from all affected groups.

Bush said he doubts the commission can finish its work in time for a January report. Recommendations should be ready by March, he said, before Congress is called to act on the Reciprocal Trade Agreements Act.

Congress this year extended the act for one year without major changes.

In setting up the study commission, Eisenhower told members he wanted them to take a "realistic and bold attitude" toward correcting the situation under which the United States annually exports about four billion dollars more than it imports.

First degree murder, which requires proof of premeditation, carries the death penalty in Ohio.

The Associated Press reported this morning that in White Plains, the murdered girl's parents, Mr. and Mrs. Robert Pfeil said more than a week ago they had received a penciled note from Schinagle in which he said that despite all the evidence that might be brought against him he still loved Cynthia.

He asked the parents to have sympathy for him.

They decline to comment on the letter or Schinagle's indictments, the report said.

Shows Film Here

REV. DWIGHT H. FERGUSON

A film showing the transfer of prisoners at Freedom Village and a talk on "Operations, Big Switch Panmunjom" will be given tonight at 7:30 o'clock by Dr. Dwight H. Ferguson, at the Salvation Army Citadel. He recently returned from a tour of the Far East where he conducted evangelistic campaigns in Japan and Korea. His home is in Mt. Gilead.

POW

(Continued from Page 1)

It was the first time Polish and Czech members had attended since they walked out of a stormy session Monday. They walked out after the other three members of the commission rejected a demand that prisoners be forced to listen to Communist persuaders.

Salutes Smartly

Dickenson, wearing a blue Chinese POW uniform, snapped a smart salute as he walked up to a Marine major who received him at the transfer tent in the neutral zone.

Dickenson angrily crumpled a pack of Chinese cigarettes and asked an Indian officer, "Is it all right to smoke, sir?" The officer replied, "Yes" and the smiling corporal lit an American cigarette.

Asked by a newsman whether more Americans might return, Dickenson answered, "More than likely." The remark was the first indication that at least some of the other balky POWs are thinking of coming home.

After the 10-minute transfer process, Dickenson was whisked by helicopter to the 121st Evacuation Hospital in Seoul for a medical checkup and processing.

Dickenson made up his mind to come back some time before 10 Tuesday night. The soldier approached an Indian guard, complained of being ill and asked to be taken to the medical station outside the stockade.

Nothing Wrong

Once there, he asked for an officer, and an Indian noncommissioned officer asked him: "What is wrong with you?"

Dickenson replied: "Nothing's wrong with me. I want to be repatriated."

He was segregated from the other nonrepatriated prisoners.

The Indian command said the touchy problem of getting defiant North Korean POWs to meet with Communist explainers may be settled Friday.

A spokesman said the leaders of the Korean POWs—who have steadfastly refused to leave their compounds—have promised to decide then whether to go quietly to the interviews.

He said Lt. Gen. K. S. Thimayya, Indian chairman of the repatriation commission, had obtained the promise and was "trying to reason" with the rebellious prisoners.

Victory Party Held By Women Voters

A "victory party" climaxing the League of Women Voters' recent "over the top" finance drive was held Tuesday night at the community rooms of the West Town Branch of the National City Bank.

It was reported that the $1,000 goal for 1953 was gained, with an additional $7 brought in, and Mrs. Jack Koeppen, finance chairman, presented certificates of merit to the members who worked on the drive. She and her committee were hostesses for the party.

Mrs. P. B. Nichols told of her trip to Europe and showed slides in three-dimensional views. Assisting Mrs. Koeppen in serving refreshments were Mrs. Clifford Baker, Mrs. Dan Hale, and Mrs. Ray Smith.

Vernon PTA Hears Dr. Weimer List Fears of Children

"Fears of Children" was the topic presented by Dr. Robert E. Weimer, psychiatrist with the Smith Clinic, when he spoke before Vernon School PTA Tuesday night in the school auditorium.

Dr. Weimer listed three major fears that children have as (1) desertion by parents (2) loss of parental love and (3) bodily injury and death.

Jack J. Bray presided for the meeting which opened with devotions by Rev. Frederick W. Leech. A favorable endorsement was given the amendment providing for a state board of education to be voted on at the Nov. 3 election.

Mrs. George Stafford gave a report on the Marion PTA Council meeting. President Bray introduced committee chairmen for the year. A social hour and refreshments followed the meeting. The hostesses were the third grade mothers and mothers of the combination first and second grade.

200,000 Expected To View Pumpkin Show at Circleville

CIRCLEVILLE, Ohio (AP)—Some 200,000 people are expected to jam Circleville in the next four days. They are coming to look at pumpkins.

The occasion is the annual Circleville Pumpkin Show, which, since the end of World War II, has drawn some 200,000 persons yearly.

Despite the drought, there will be a large display of pumpkins. The champ is expected to weigh about 75 pounds, according to Ben Gordon, former mayor and head of the pumpkin-squash department.

State Highway Patrol Reports Pair of Arrests

A 14-year-old Marion boy was one of two arrests reported by the state highway patrol this morning.

The youth was arrested on Route 23 at 9:50 p.m. yesterday for operating a motor scooter without an operator's license. His parents were notified of the charge and they will be cited to appear in juvenile court with him at a later date.

William H. Nichols, 42, of Tampa, Fla., was arrested on Route 23 at 4:30 p.m. yesterday for not having mud flaps on his trailer. He was cited to appear in Municipal Court this morning.

Fall Malady

Gambling Bug Bites Hard in Autumn

By HAL BOYLE

NEW YORK (AP)—Health hint to wives

About this time of year does that favorite brute in your life begin to turn pale thin and languid?

Does your husband bolt his supper as if he hadn't seen food since breakfast and then look absent-minded the rest of the evening, or make mysterious remarks such as 'A guy simply has to win sometime'?

Well ladies, don't get too worried. Check and see if he tosses in his sleep and mutters

"Why did I have to pick Adeline? What good is No. 38? Should I ride with Michigan State or Michigan?"

Then, even if your name is Esmeralda don't get jealous and jump to the conclusion he is hot footing it after some gal called Adeline. And don't start buying him blood-building tonics or encouraging him to visit a psychiatrist.

All his symptoms indicate he merely is suffering from a seasonal form of malnutrition, common in office and factory. Instead of spending his lunch money on food he is investing it in betting on a football pool or buying chances on some kind of a raffle.

These raffles and pools go on all year round in offices and factories, but somehow they seem to reach a peak when the birds wheel south in autumn. The heady urge to take a big chance on a mild gamble overcomes everybody from straw boss to head bookkeeper to office boy.

As a matter of fact these particular three individuals have to buy at least one chance—as they are probably running the raffle.

"My wealthy grandfather gave me this $250 wrist watch for my high school graduation," says the office boy, "and my hope of getting through law school depends upon my success in selling 3,000 chances at $1 each."

Well, of course he only buys one ticket himself, but somehow he wins three years in a row.

One year a friend of mine won the watch and when he took it to a jeweler the man replied when he questioned a $25 repair bill: "The only honest thing about watch is the crystal. It shows the wrong time clearly."

Now, about Adeline. The bookkeeper's pitch was this:

"My late wife left me this glorious diamond ring which naturally belongs on the finger of your wife. I paid $465 wholesale for it 30 years ago.

"As a sporting gesture I am offering you a chance to grab it for $1. There are only 1,500 chances on this punch board, which is based on girls' names. I know your own wife's name is Esmeralda but how are you going to print a name like that on a punch board?"

So your grandmother's name was Dorothy? Dorothy is gone. How about taking Adeline? So you plunk a buck on Adeline.

Let us leave out what happens to the diamond ring, or the bookkeeper's raffle profit. Why do you think he is a bookkeeper? and what do you think that old fashioned diamond is really worth?

The real lure is that $1 a week the straw boss gets your old man to gamble out of his lunch money on whom the sports tycoons will pick as the national football team of the year. Notre Dame or Michigan State (as of now) and they don't play each other this season!

Oh well, here we go. I picked the Dodgers in six games and all the Yankees won in six was the World Series and all I lost was my reputation.

But I still say de wife if your husband is picked and under nourished send him to work with a sandwich, and let him put his office lunch money on Notre Dame-Michigan State and it won't go on winning forever—or can it?

ORE HAULING SLACKENS

CLEVELAND (AP)—Thirty vessels from the Great Lakes ore carrier fleet already have been laid up for the winter, and 10 more probably will be taken out of service in the next two weeks. One reason is lack of storage space on lower lakes docks where ore is arriving faster than it is being consumed by steel mills.

STILL QUACKING. Attendant Edward Jones of the Society for the Prevention of Cruelty to Animals holds a mallard drake which was found floating in a creek south of Syracuse, N. Y. Its neck pierced by an arrow. The arrow was removed by Jones, who reported the drake appeared little the worse for wear.

Girl Scout President Is Reelected to Office

CINCINNATI (AP)—Mrs. Roy F. Layton of Chevy Chase, Md., was re-elected today president of the Girl Scouts of the U. S. A.

The scout leaders, at the closing session of their 32nd national convention, also renamed Mrs. Gordon C. Hunger of Scarsdale, N. Y., first vice president.

Columbus Mother Asks Probation in Husband Slaying

COLUMBUS, Ohio (AP)—A pretty brunette mother of five yesterday told a story of love and anger as she pleaded guilty to a charge of first-degree manslaughter in the death of her former husband.

Mrs. Ruth Eleanor Penrod, 33, asked to be put on probation for slaying Vernon Penrod, 30, of Columbus two years ago. She told of how their plans to remarry ended in despair as he died in her arms.

She said they argued and he hit her. Then she said she picked up his shotgun, which was lying on her kitchen table. She continued:

"I said, 'If I knew how to load the gun, I'd use it—I could cheerfully kill you.'

He loaded it and threw it at me—it went off and he fell.

'I picked him up in my arms and told him I didn't mean to shoot him. I called the emergency squad.

'I said, 'Hang on honey, there's help on the way.' But he shook his head, no.

'I asked him, 'Do you really hate me, Vern?' He said, 'No, I've always loved you, Ruth.'

"He died a couple of minutes later."

The case was referred to the probation department.

FFA Comment on Benson's Policies

Young Farmers of Nation Speak Out

By MARTIN S. HAYDEN

KANSAS CITY, Mo (NANA — According to the farmers' sons, Republican politicians have reason for worry as to what ' happening in rural American.

A poll taken at random last week among 10,000 teen-age farm boys conventioning here as the Future Farmers of America showed better than three out of four of them worried about farm prosperity

It showed nearly half of them reporting that in their home counties, people blame the Republicans for the drop in farm prices

Finally, it showed President Eisenhower materially more popular than his party and that some farm boys who blame ' Republicans" for lower prices do not include Secretary of Agriculture Ezra T Benson, current 'Washington scapegoat for the farm dissatisfaction

Washington correspondents of three big-city newspapers cooperated in the poll Taking steps to avoid getting multiple votes from the same county delegations, they got farm boys from 32 states to mark prepared ballots.

— —

THE FIRST QUESTION was "Are farmers in your area worried about farm prosperity'"

The future farmers replied'

Yes—78 per cent, No—22 per cent

A check of the ballot by states showed the worry to be nat on-wide Missouri checked in with a 10-to-0 expression of concern Kansas was 9 to 1 The combined votes of New York, New Jersey, Connecticut and Pennsylvania showed a 12-to-5 criticism

The second question was the $64 number for Republicans worrying about next year's elections "Do farmers in your area blame the Republicans for the drop in farm prices'"

The answers were

Yes—56 per cent, No—44 per cent

But in this category, the response varied in sharp conformity with the division of the country into types of agriculture and into drought vs wet regions

Missouri, for instance voted 6 to 4 that the GOP was to bame Texas split 11 to 11 On the other side the New York-Pennsylvania group of eastern states voted 13 to 4 that the Republicans were blameless while Massachusetts, Maine and Vermont were 5 to 0 in their decision that the GOP was not at fault

— —

THAT BENSON is not being blamed as much in rural America as is the GOP in general was indicated by the third question.

"Do farmers in your area approve of Ezra Benson as Secretary of Agriculture?"

The answers were

Yes—66 per cent. No—34 per cent.

Again the drought and cattle states led the anti-administration vote while the dairy and truck-farming sections of the East found little to complain of in Benson's philosophical declarations against farm handouts from the treasury

The President's popularity measure was taken with this question "If President Eisenhower were running again today how would he do in your community?"

The answers

Better than in 1952—22 per cent, not as well as 1952—31 per cent, about the same as 1952—47 per cent

On the assumption that fairness to a President who swept 38 states in last year's election would permit an addition of the "better than 1952" votes and the "about the same" the combined 69 per cent confirms a general belief that Eisenhower is more popular than his party.

— —

AS A WIND-UP, the farmers' sons were asked to ' state in one sentence what you think has been good or bad about the Eisenhower administration to date"

The answers reflected everything from golf to Korea

Texans were the most positive on both sides These were typical comments from that state

"He hasn't helped the farmer one damned bit"

"He let cattle go down and kept everything else up"

"Signing that Korean armistice was bad"

"He ended the Korean war — good"

'He plays too darned much golf but, since he's a Texan, I'm for him"

Among those who like the President, the end of the Korean war was listed as a top reason A Maryland boy put it "He kept us out of war" An Arkansan liked "The end of the war and his standing up on the prisoner exchange" From Louisiana, it was "He worked out a treaty in Korea" A Tennesseean said "He promised to end the fighting and he did"

Golf, lower farm prices and a suspicion that the 'interests" are doing well featured the anti-Eisenhower comments

— —

AN ALABAMA BOY said "He leans to big money and plays golf too much" From Minnesota it was an indefinite "He's a little partial to certain things"

Other scattered opinions

From Florida—"He cut the military budget in half—good '

From Indiana "I don t like the cuts in defense spending"

From Pennsylvania 'He cleaned the crooks out of the White House."

From Tennessee· "Dry weather and low prices got us discouraged"

From Massachusetts· "In the troubles we face, he's the best president we could have"

From Wisconsin· "They promised to take off supports; now the farmers want them back"

From Iowa: "Too much foreign support and not enough at home"

From Illinois "He's real conscientious and has cut costs"

HONORED. Marine Reserve Lt Raymond G. Murphy, 28, of Pueblo Colo., has been awarded the Congressional Medal of Honor. The action which brought the lieutenant the award occurred on Feb 3, 1953 in Korea, when, although seriously wounded he led his platoon in an uphill attack on well-entrenched enemy troops

Sweet Potato Chips May Answer Yam Surplus Problem

STILLWATER, Okla (AP — The lowly yam finally may get in the chips—sweet potato chips, that is

After studying the surplus yam situation for years scientists at Oklahoma A&M think they've finally hit on a solution

If you can make potato chips from regular potatoes, why not fry up sweet potatoes"

Frank Cross, head of the horticulture department, says experiments show the new chips may soon be the nibbling sensation

They're big golden yellow and crisp with the sweet - potato flavor brought out

Some of the first experimental chips have been served this month at field days around Oklahoma and a survey of those munching the delicacy show they're enthusiastic

"Besides being colorful and tasty, the chips made from sweet potatoes are healthier" Cross pointed out 'They have all the nourishment of regular potato chips plus vitamins"

Only a small part of the sweet potatoes harvest can be sent to the grocers because the majority is jumbo size and too big and pithy for the table

However these big ones are perfect for making sweet potato chips

The sweet potatoes are processed for chips virtually the same as Irish potatoes

Drought Emergency Declared in Indiana

These Days

By George Sokolsky

SOKOLSKY

Way back in my boyhood, it was called Americanization. It was an approach to the children of immigrants or to the immigrants themselves so that they might more readily understand this country, its traditions, its ideals and its institutions without so uprooting the individual that he was left without a moral basis for life.

It is now half a century since I was absorbed in this process and I now learn that the YMHA's and Jewish Community Centers all over the United States are celebrating the centennial of the first such organization, which was established in Baltimore, Md., in 1854.

-:-

THE AMERICAN people are a composite of some 50 nations or races or whatever you wish to call them. This must be a good country or so many people would not have come to it and stayed here. And they still not only continue to migrate to this land of ours but quarrel when limitations are put on immigration.

This can be said as well: nobody ever came to the United States as an immigrant who was content to live in the land of his birth. People were driven to America by religious persecution, and by unfavorable economic and social conditions.

The children of these immigrants are quickly translated into Americans by the public school system, which wears off the rough edges of strangeness and gives to all children an equality of opportunity that is the characteristic of this country.

In my childhood, we used to play on the streets after school, unorganized play except that one boy always asserted leadership and somehow his capacities dominated the group.

If this strong boy was a decent fellow, the gang was decent; if he tended to be a thief, the gang went criminal.

-:-

THE ELDERS played a small part in the lives of the children; they worked a 12-hour day and came home tired and irritable. Even more than that, the children knew that the parents were "greenhorns," as they were called, and doubted their knowledge because they did not speak English.

My experience as a child has been reproduced generation after generation. At this moment, the same difficulties, the same problems assert themselves among the newest immigrants.

When children play on streets, they form gangs and gangs can be good or bad; they can be a substitute for organized play or they can become the breeding grounds for crime.

Those of us who were fortunate enough to join clubs or go to playrooms in social settlements were given an added opportunity for Americanization.

-:-

THE YMHA'S, in those days were situated in the slum areas where I was brought up. There were also the Educational Alliance, the University Settlement, the Henry Street Settlement and a number of similar institutions which took us to their bosoms and gave us opportunities for self-improvement which were otherwise unavailable.

I went to the Educational Alliance on the East Side of New York, which, at that time, devoted itself to Americanization.

When I think of David Sarnoff and Eddie Cantor, I cannot avoid recalling the circumstances of their childhood and the remarkable results achieved by these associations not in uprooting children from their ancestry, but in transplanting them to wholesome soil and helping them to grow straight into the sun.

-:-

AMERICANIZATION is a good term for this process, because the American ideal of human freedom and dignity, of playing the game by the rules, yet playing as an individual, competitively taking the risks and expecting just rewards without prejudice or discrimination — these concepts of life are not European and they did not come to us naturally. They had to be taught by precept and experience.

I am willing to wager that no boy who in those years went through the Americanization process became a racketeer or a spy. We were Americans, we belonged.

-:-

HALF A CENTURY away, I think that I can say that the Americanization influences of the Educational Alliance did more for me than any other force that I encountered.

In those days boys clubs also played a part in building character in men. While this work was not limited to Jewish immigrants and their children, it is interesting that the Jewish group is celebrating a century of such work in and for America.

It is a work that should be continued among the newer immigrants.

County Pastors Meet, Discuss Area Session

Methodist ministers of Marion and the county met Tuesday in Prospect at the home of Rev. and Mrs. L. L. Young for dinner and a fellowship meeting, together with discussion of denominational work set up for the year. Rev. Walter C. Eyster of Epworth Church in Marion is group chairman. Meeting with the pastors was Rev. Harold F. Kellogg, Lima District superintendent, and the ministers' wives accompanied their husbands.

Both Rev. Eyster and the superintendent made reports on a district staff meeting in Lima Monday and an Ohio Annual Conference Inter-Board meeting in Columbus Oct. 12. Emphasized were the Advance Missionary Program of $2,000,000, the Evangelistic and Educational Outreach and the Lay Movement.

In outlining this program, Rev. Eyster stated, "People today are spiritually hungry. They are finding a new peace and joy as they are attending church in greater numbers as families and are participating in the opportunities for service and Christian witness the church has to offer.

Rev. W. Lincoln Stafford of Wesley Church in Marion reported on the Interdenominational Prayer Group held each Saturday at 1 p.m. at the new YMCA. Others attending were Rev. J. W. Spears of Green Camp, Rev. Fletcher Shoup of Prospect Street Church in Marion, Rev. J. T. Yocom of Morral, Rev. O. W. Robbins of New Bloomington and Meeker, Rev. Robert Fichter of Waldo, Rev. Leland Wiley of LaRue, and Rev. C. B. Frisbie of Norton, and Mrs. Spears, Mrs. Shoup, Mrs. Yocom, Mrs. Robbins, Mrs. Fichter, Mrs. Wiley, Mrs. Frisbie, Mrs. Eyster and Mrs. Stafford.

One-Legged Cincinnati Man Breaks His Ankle

CINCINNATI (AP) — Joseph Tiffe is 70 years old and has only one leg.

He was repairing his automobile yesterday. He lay underneath it, tinkering around. His one leg was protruding into the street.

A motorist drove over it.

The one-legged man now has a broken ankle.

Man, 67, Hospitalized, Suffers Cut in Fall

A Marion man, Frank Slatzer, 67, of the Elite Apartments on S. Main St. was reported in "fair" condition today at City Hospital. He was taken there after receiving aid from police at 12:51 this morning when he was reported to have fallen into a basement window well.

It was reported to police the man fell into the well after the rubber tip of his cane came off as he was climbing the stairs to his apartment. Police had to remove the man from the well by entering the building and taking him through the basement window. He suffered a cut on the top of his head.

Inside Labor

By Victor Riesel

RIESEL

DETROIT

Like any other capital in the world, this auto capital has its far flung intelligence systems. Here in the hometown of Defense Secretary Charles Wilson and the CIO Auto Union, there is detailed knowledge of the Chinese enemy's plans for a massive industrial system with which to mechanize a 10,000,000-man army on the war front and to undersell and drive us out of Asia's business world at the same time.

There is evidence here that the Russians have begun building exactly 141 huge factories in "agrarian" China.

To get manpower the Reds are training and moving men around China in batches of 4,000 to 6,000 each. They're erecting iron and steel mills, digging coal mines and oil wells, putting up vast machine shops, tractor works and auto plants.

-:-

SOVIETIZED China's first auto plant is being constructed in Mukden by steel experts called in from the Anshun steel center. The foundation was laid on July 15—and will be followed by 70 other such plants.

Some 6,000 men from Shanghai are being trained in Mukden to roll out the cars on a Detroit assembly line system.

Meanwhile, the war-ripped Chinese transport system is being revitalized by supplies of American and Western European trucks moved across the river from Portuguese Macao. Many of these are Dodge and Ford trucks purchased by agents abroad in good faith and sold by the auto companies in good faith.

They were sold to disguised Soviet agents, stored for six months in Macao warehouses and then sent on to Red China.

The same system works for Hong Kong undercover agents who pay 22,500 Hong Kong dollars for such vehicles and then move them to China via Shehow and Canton.

In July and August, some 400 of these trucks were rushed into enemy territory — and only the British and Portuguese authorities can crack down. American industrialists and our government are helpless.

-:-

A SMOLDERING feud between the forces of Gov. Thomas E. Dewey and the late Sen. Taft will soon flare up violently in the White House and throughout the Republican party. Nub of this latest hassle will be the rejection of Lawrence E. Gooding of Wisconsin as a member of the National Labor Relations Board.

Taft people had pushed vigorously for the appointment of Gooding. They viewed the appointment of Jim Mitchell to the secretaryship of labor as a bow by Ike to the Dewey camp and hoped that the naming of Gooding would balance the scale of White House influence. In Wisconsin, Gooding confirmed to me that he would not get the okay for the important assignment. His backers are infuriated and highly placed persons look for a gloves-off battle between the two vying groups in the GOP.

BRITISH scientists led by atomic expert Prof. J. D. Bernall are launching a drive for closer links with Soviet pysicists.

Bernal led six others to the Soviet Union recently, saying this was just a "pilot" delegation to "improve relations between British and Soviet scientists by the more extensive exchange of books and papers or by more frequent personal contacts."

How naive can they get? And how much do Prof. Bernal and his six fellow travelers know about our atomic and hydrogen defenses?

To stop the AFL's national office from cracking down on the mobs which have seized some unions, the gangs are floating rumors that they will squeal and embarrass some AFL high council members. Last week they threatened to go after those who are exposing extortioner Joe Fay.

The murdered Tommy Lewis, late head of the Bronx Building Service Union who was removed from office by gunblast last August, was offered $125,000 in cash to get out of upper New York. He refused.

A few weeks later he was dead. These boys play for big stakes. . .

OLD SOCIALISTS in Detroit reveal a bit of political history never before printed. They report that the Socialist party could really be flying high these days if one of its top leaders had not been convinced that man was destined only to crawl the earth.

Back in 1900, when there were many wealthy men up in the Socialist party councils, the organization's leaders were approached by a fellow Socialist who offered them a share in his invention for $20,000. The party could have a half interest, he said.

The party was too busy with "scientific socialism" to pay any attention. The inventor went elsewhere and got his money. Today, as a result, man flies. The inventor? One of the Wright Brothers!

Today, the Socialist party has only the respected Norman Thomas—but had it obtained half the value of the Wright patent, it would have had fabulous millions for its propaganda, and America today might have had a powerful socialist movement in the image of British Socialism.

Undoubtedly inspired by this saga, years later David Lasser experimented with rockets which migt reach the moon. Lasser was then a Socialist. Today, he is research director for the CIO's United Electrical Workers. . .

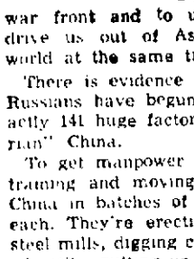
Gas Buggy Days

By Inez Robb

All my life I have nurtured a morbid inferiority complex in the face of any machine more involved than the rotary egg beater. I have never been able, for instance, to master the art of driving a horseless carriage. The very idea scares me stiff.



INEZ ROBB

Well sir, I have never felt that psychoanalysis was indicated so long as I have taxi fare. Nontheless, as I was thumbing through a new book the other night, it suddenly occurred to me that perhaps the reason I can't drive is hereditary.

My father and my uncles couldn't drive, either, although they did for years.

-:-

THE BOOK that set me pondering on this problem is "A Pictorial History of the Automobile," which contains, I swear, a picture of the very first automobile in our family.

This was a big Buick touring car bought by Uncle Ted when I was a little girl before World War I. Eventually papa and Uncle Charlie bought cars, too. They drove for years, but none of the three ever really learned to drive.

I think their basic trouble was that they couldn't help but feel that anything with horse power ipso facto possessed horse sense.

They were all three farm boys, accustomed to horses from infancy. You gave a good horse its head, and it always looked out for itself and for you: that was their feeling, and the system by which they operated the automobile.

-:-

ALL THREE men were over 40 when they acquired their first autos and I don't believe that time, tide or sad experience ever really convinced them of the fallacy of their system.

When Uncle Ted, a brilliant engineer, discovered that an auto didn't really have horse sense, he declared war on the machine.

He drove a succession of cars for 25 or 30 years more, but each was his sworn enemy with whom he never really made peace. He would have made a wonderful cavalry man.

Papa drove for maybe ten years before mama made him abandon his happy forays into the Boise Valley. He knew every nook and cranny of the valley, which pioneers had homesteaded every quarter section and who now lived on each farm.

-:-

EVERYBODY knew papa, too. He was always taking both hands off the wheel to wave to old friends or point out some fascinating locale. Or he would turn around to face the back seat and lecture his terrified little audience on the scenery or the wheat yield or irrigation problems.

"Kenton! Watch the road, keep your hands on the wheel!" was mama's constant litany, as the car wove around of its own volition or came to a dead stop if papa, luckily, took his foot off the gas pedal in the midst of his lecture.

I don't know why we weren't all killed, especially the day papa launched into a history of the old Johnson homestead, which had been pioneered by a southern family.

-:-

ONE OF ITS members was a great poker player. When papa was a little boy this particular Johnson had raked in a vast pot one night when he threw down a hand saying, 'Gentlemen, ah have two small pa'hs, fo's and fo's."

Before mama could exhort papa to keep his hands on the wheel, we were in an irrigation ditch. But aside from a monumental shake-up "good for the liver," papa said, we were none the worse for wear.

That was the end of papa's driving. Mama had had enough.

"Get a horse," she said to papa and meant it. And he did. Traded the car in for it, if I remember rightly.

Cut Kidnaper's Opportunity to Minimum

FBI Advises Parents on the Protection of Children

By J. EDGAR HOOVER
Director, Federal Bureau of Investigation

WASHINGTON (NANA)—Since Sept. 28, 1953, when six-year-old Bobby Greenlease fell victim to a ruthless kidnaping plot, the attention of the nation has been focused upon the kidnap threat.

Assuredly, a more heinous crime cannot be conceived. In luring the Greenlease child from the custody of his school and taking his life, the boy's kidnap-murderers have caused America's parents, schools, and youth organizations to re-evaluate the protection they provide youngsters.

Criminals who would profit by selling the lives of kidnap victims for as great a sum as the traffic will bear represent a sordid national problem. From the passage of the federal kidnaping statute on June 22, 1932, to the present time, the FBI has investigated 459 cases of kidnaping. Of this total, 457 have been solved, and the other two are still under active investigation.

Invariably, when kidnapings occur, federal and local officers find that public-spirited citizens are prepared to render every assistance which is requested of them. Momentarily, the nation's foremost concern is for the safe return of the victim. In the case of Bobby Greenlease, he was killed shortly after being kidnaped and before the family, law enforcement, or anyone had a chance to intervene.

The apprehending and convicting of kidnapers is a deterrent — but greater preventive action is necessary. Perhaps the realization of this fact is the motive which has caused many parents, teachers, youth leaders and local law-enforcement agencies to analyze the protection they provide our youngsters.

— —

BECAUSE SCHOOLS are charged with the care of millions of children throughout a great part of the year, each educational system should establish and enforce stringent protective measures. These measures doubtless will vary from community to community, but they should include at least the following basic rules:

1. Whenever possible before releasing a child to anyone but his parents during the regular school day, a teacher or administrative official should telephone one of the child's parents or guardians for approval.

2. When a parent telephonically requests that a child be released early from school, the identity of the caller should be confirmed before the child is permitted to leave. If the parent is calling from his home, the school can verify his request by a return telephone call. In the event the telephone call is not being made from the child's residence, the caller should be asked intimate questions about the child. These questions might include the child's date of birth, the courses he is stydying, names of his teachers and classmates, and similar facts which should be known to his parents.

3 Faculties of schools should be alert to observe suspicious persons who loiter in school buildings and on the surrounding grounds If such persons cannot readily provide a logical explanation for their presence, the police should be notified immediately. The identity and a description of all such suspicious persons should be obtained.

4. Schools, as well as parents and youth agencies, should take steps to make sure that adult supervision is provided in school and recreational areas.

— —

THE RESPONSIBILITY of parents, however, greatly surpasses that of public and private institutions. As instructors in the world's greatest classroom, the parents have the obligation of teaching their children the fundamental rules of self-protection. Specifically, children should be instructed to.

1. Travel in groups or pairs.

2. Walk along heavily traveled streets and avoid isolated areas where possible.

3 Refuse automobile rides from strangers and refuse to accompany strangers anywhere on foot.

4. Use city-approved play areas where recreational activities are supervised by responsible adults and where police protection is readily available.

5 Immediately report anyone who molests or annoys them to the nearest person of authority.

6 Never leave home without telling their parents where they will be and who will accompany them

7. Loudly cry for help if a stranger attempts forcibly to detain them.

— —

IN ADDITION to impressing their children with the necessity of following these rules, parents also must exercise a practical degree of supervision over their youngsters' activities For example, grade-school children should not be permitted to travel the streets at night unless accompanied by a reliable adult Other precautionary measures which parents should employ are:

1. Make certain that outside doors, windows and screens are securely locked before retiring at night.

2. Keep the door to the child's room open so that any unusual noises may be heard.

3 Be certain that the child's room is not readily accessible from the outside.

4. Never leave young children at home alone and unprotected and be certain that they are left in the care of a responsible, trustworthy person.

5. Instruct the children to keep the doors and windows locked and never to let in strangers.

6. Teach the children as early as possible how to call the police if strangers or prowlers hang around the house or attempt to get in.

7. Keep the house well lighted if it is necessary to leave the children at home.

8. Avoid obvious indications that you are not at home. Opened garage doors and newspapers left outside the house are obvious indications that you are away from home and that your children may be inside unprotected.

9 Instruct servants not to let strangers in the house.

10. Do not advertise family finances or routines. Kidnapers frequently have their victims under surveillance for several days prior to the abduction, so that they may acquaint themselves with the family's habits.

— —

IF RULES SUCH AS these are conscientiously followed, the criminal opportunity of kidnapers, sex offenders and others who prey upon children will be greatly reduced

Whenever a kidnaping occurs, it is essential that the victim s family immediately initiate action to effect the safe delivery of the victim. This can best be accomplished when the family of the victim carries out the following suggestions:

1. Telephone the Federal Bureau of Investigation. The telephone number of the nearest FBI office is listed in the front of each telephone directory, the emergency telephone number at FBI headquarters in Washington, D C. is National 8-7117 The complainant should be prepared to furnish in an orderly fashion all facts relating to the disappearance of the victim.

2 Maintain absolute secrecy and do not permit any of the facts do not permit any of the facts regarding the kidnaping or demands for ransom to be known to anyone outside the immediate family except the investigating officers.

3. Do not handle letters or communications demanding the payment of ransom. Turn these over to the trained investigators as soon as possible.

4. Neither touch nor disturb anything at the scene of the crime. Minute particles of evidence which are invisible to the naked eye may be destroyed.

5. Be calm and strive to maintain a normal routine around the home and office if possible.

6. Place full confidence in the law-enforcement officers who are investigating the kidnaping. In addition to obtaining photographs and a complete description of the victim, it is essential that law enforcement officers have all facts relating to the personal habits, characteristics and peculiarities of the victim

When kidnapings occur the first concern of the FBI and other law-enforcement agencies is always the safe return of the victim.

Town Dried Up But Nobody Prays for Rain

HORSE CAVE Ky. (AP)—This area is gripped in one of the worst droughts in its history, but nobody prays for rain here. It could turn the community's biggest problem into a killer.

Officials have been seeking a solution for four years, but who wants 45,000 gallons of arsenic trichloride?

The chemicals, stored in large tanks along the Louisville & Nashville Railroad, were left behind after the Shaw Oil Co. closed its offices.

There were no complaints until last summer when leakage from one tank killed vegetation in an area almost a mile wide. Startled residents in this community of 1,545 were told that moisture reacts on the chemicals by producing hydrochloric acid fumes and a worse byproduct, arsenic oxide.

The city tried to get rid of it but could find no agency to do the job. It even tried the Defense Department.

Only July 9 the County Health Board issued an ultimatum to the railroad and the oil company to get rid of the chemicals within six days. Nothing happened.

Both were indicted later on charges of maintaining a common nuisance but that was no help since the case is yet to be tried.

"We don't know what to do," says Mayor L. H. Vensel. "We've been safe enough in this dry weather, but we don't know what will happen if it ever rains."

It is possible for as many as 40,000 cicadas to emerge in a single night from under one tree.

READS ABOUT HIS MURDER TRIAL. Former Lt. Aldo Icardi, 32, of Pittsburgh, reads a news story telling of his trial in absentia in Novara, Italy, in connection with the slaying of OSS Maj. William Holohan, who was killed when he balked at aiding Communist guerrillas during World War II. Icardi, in a letter to the Italian court, said "It is ridiculous that any enemy country . . . should judge two American soldiers." The other soldier, also on trial in absentia, is ex-Sgt. Carl Lodolce, 26, of Rochester, N. Y.

Parched Eastern U.S. Hopeful After Storms Hit West

By The Associated Press

October's long spell of mild weather continued today over wide areas in the eastern half of the nation.

Cool weather, with rain and snow, was reported in many sections of the West.

Another day of temperatures in the high 70s and 80s appeared in prospect for the Indian Summer belt. Record readings for the date and for October were reported in scores of cities yesterday from Minnesota to New York. Top readings included 86 in Chicago and St. Louis. New England was the coolest area in the eastern half.

Heavy thundershowers hit the western plains states with rainfall of one inch in parts of Nebraska.

Clear and cool weather was reported west of the Rockies except for showers in the far northwest.

Five persons were injured yesterday as a tornado struck the northeast section of Amarillo, Tex. A small tornado hit Fowler, in southeastern Colorado, but no injuries were reported.

Since 1800, Pennsylvania has produced almost 30 per cent of the bituminous coal mined in the U. S., with West Virginia accounting for more than 20 per cent.

Columbus Host To Ohio Chamber

COLUMBUS, Ohio (AP)—Ohio businessmen will turn the spotlight on business, government and industry at the annual two-day Ohio Chamber of Commerce meeting getting under way here today.

Dr. Arthur S. Flemming, director of defense mobilization; Dr. Clarence E. Manion, chairman of the commission on intergovernmental relations, Washington; Dr. Clyde E. Williams, director of Battelle Memorial Institute, Columbus and Philip Sporn, New York president of the American Gas and Electric Co., are among the scheduled speakers.

OLD ICE BOXES OUT

LORAIN, Ohio (AP)—To keep an old, unused ice box—a potential death-trap for children—will be unlawful here after Nov. 2 Council has passed an ordinance providing a fine of up to $200 and a jail sentence of up to 10 days for persons who have old ice boxes or refrigerators in their possession.

Ousted Union Will Fight NLRB Ruling

CINCINNATI (AP)—A local of the Fur and Leather Workers Union, stripped of its bargaining power at a Cincinnati plant because one of its officers was convicted of lying when he said he was not a Communist, may fight the National Labor Relations Board ruling through the courts.

An anti-Communist member of Local 214 said the unit voted yesterday to ask the courts to declare the NLRB action illegal.

However, Frank Weise, chief shop steward, refused to confirm the action.

The international union was thrown out of the CIO.

The Taft—Hartley labor law requires all officers to sign affidavits they are not Communists. Tevis Bruce Schooler, then financial secretary-treasurer of the local, signed such a statement.

Later Schooler was convicted of perjury and sent to prison for two years for failing to tell about his Red ties.

The NLRB ruled Saturday Schooler's false statement nullified the certification of bargaining rights the board had given to the local for the Am-O-Krome Co. here. It was the first such action by the Board.

Gate Crashers Horn In On Guatemala Bullfight

GUATEMALA, Guatemala (AP) — Gate crashers fought with ticket holders for seats yesterday at the bullfight here which was part of the opening program for Guatemala's annual October national fair Eight persons were injured and the bullring was considerably damaged.

The government - controlled national radio said the gate crashers were "reactionaries" trying to sabotage the state-sponsored exposition.

About 2 500 persons crashed the bullring gates and the scramble for seats led to the riot with ticket holders. An undisclosed number of arrests were made.

Mt. Vernon Offers Water to Farmers

MOUNT VERNON, Ohio (AP) — Knox County farmers hit by the drought can get free water from the local fire department

That was an offer made to the farmers today by Safety-Service Director Robert G Ransom The farmers must make their own hauling arrangements

Contrary to the situation in many Ohio towns, Mount Vernon has plenty of water. The town is situated on a deep gravel bed of the glacial moraine and the water comes from apparently inexhaustible deep wells.

This Different Apple Pie Is Unusually Good

Apple pie is so good and so popular we are not often tempted to make changes in this old-time favorite Yet, when you try this new Walnut Crumb Top Apple Pie, we believe you will agree that even good things can be better.

For the crunchiness of the brown crumb topping with the added flavor of walnut meats, puts this apple pie in the extra special class

It's easy to make, too

Use 1½ tablespoons quick-cooking tapioca, ¾ cup sugar, ⅛ teaspoon salt, ¾ teaspoon cinnamon, ¼ teaspoon nutmeg, 2½ cups (No 2 can) pie-sliced apples pastry for one-crust 9-inch pie, Walnut Crumb Topping, ¼ cup butter, melted.

Combine tapioca, sugar, salt, spices and apples. Roll pastry ⅛ inch thick. Line a 9-inch pie pan Trim pastry 1 inch larger than pan, fold edge to form a standing rim, and flute. Fill with apple mixture and bake in hot oven (425 degrees F) 30 minutes. Then sprinkle Walnut Crumb Topping over apple mixture around edge of pie leaving 1½ to 2-inch area in center uncovered to permit escape of steam Spoon melted butter over crumb topping Bake 20 minutes longer, or until syrup boils with heavy bubbles that do not burst

If desired use ½ cup granulated sugar and ¼ cup firmly packed brown sugar

Walnut Crumb Topping: Combine ½ cup sugar, ½ cup fine graham cracker crumbs, ¼ cup flour, ¼ cup chopped walnuts, 1 teaspoon cinnamon and ⅛ teaspoon salt

Note: If apples lack tartness, add 1 tablespoon lemon juice when combining apple mixture.

Jaycees To Apply Reflective Tape to Bicycles in Marion

To help reduce night accidents involving bicycles and to make bike - riding youngsters visible at night, the Junior Chamber of Commerce will apply "scotchlite" free of charge to all bikes brought to the following schools Saturday from 1 to 4 p m Forest Lawn, George Washington, Pearl St Harding High, Oakland Heights Olney Ave Silver St Taft Junior High and Mark St

"Scotchlight" is a brilliant reflective material in tape form that becomes a permanent part of the bike once applied and makes bicycles visible from any angle of approach. Silver reflecting tape will be applied to the handlebars and front fork and three strips of red tape will be applied on the rear fender.

This program has been praised by Police Chief Tom Coon who has said it should help greatly to prevent nighttime accidents with bicycles

William Luce is chairman of the Jay Cee safety committee and William Flach is president of the group.

Radio and Television

By John Crosby

Letter From the Far East

J. CROSBY

Gee, I remember way back when "Dragnet" was a summer sustaining radio program in grave fear of its life. NBC brass came within an inch or so of lopping it off the network, after deciding that it didn't sound like anything in their experience. Then came the favorable notices, a reprieve, the transfer to television and now, bless my soul, it's a national institution.

It just goes to show, doesn't it, but just what it goes to show, I'm not sure. I was one of the earliest—for "Dragnet" and now I'm a little alarmed. Just about everyone on earth has parodied "Dragnet." There are a million "Dragnet" jokes. "Dragnet" has become a jukebox tune.

In fact, there was a lot of speculation about what would happen when the tune got among the top seven hit tunes. Would the Lucky Strike "Hit Parade" play it, celebrating, as it does, a rival cigarette? (Philip Morris.) It got there. They played it.

-:-

I JUST GOT A LETTER from my favorite U. S. Army private, Matt Melke, who has been shipped—since I heard from him last—out to the Far East. He's still thinking hard, though, which is why, I guess, he's still a private.

"Being that there wasn't any radio to listen to I got to reading Tocqueville's second volume on American democracy," writes Pvt. Melke, "which shows the desperate lengths you can be driven to by the lack of modern conveniences.

"Tocqueville writes 700 pages about America without mentioning television, no mean feat in itself, but he does mention a difference in tastes for drama. Europeans, he says, have been interested in the great and the beautiful, Shakespear's plays, for instance, revolving around kings and European act around religious or mythological themes.

"But Americans seem satisfied with the commonplace. Our art, Tocqueville thought, produced accurate reproductions of things we had already seen too much of and our drama is too often a copy of what has been happening to us all day long. Right away it made me think of this 'Dragnet' program you critics have praised so highly. Seventy - five hundred miles I have to travel to get an inspiration about 'Dragnet' but that's the way it happens sometimes.

-:-

"BECAUSE THIS program seems to be the next to the last step in the trend about which Tocqueville had a polite foreboding over 100 years ago. What happens on 'Dragnet?' This guy tells you his name is Friday and his partner's name is Smith and you expect, from the way he says it, that he's about to throw in that like of Jack Benny's 'There'll be a slight pause while everyone says "Who cares?"

"They run down a lot of routine clues which, by the middle of the case, have led to nothing. Then they start from scratch, run down a lot more routine clues which lead inevitably to a routine solution. No surprises, just weariness. The criminal is tried. Friday and Smith go home to bed. Everyone in between is thoroughly irritated about being asked at 3 in the morning if they know Howard Winslow.

"In the good old days, the detectives would have asked a beautiful redhead and she would have screamed and jumped out the window. But on 'Dragnet' they ask a middleaged old harridan and she says 'Nah, I hever heard of 'em, whaddaya botherin' me for' and slams the door in poor weary Friday's face.

-:-

"WELL, IF THE TREND toward realism — or what we conceive to be realism—is what we want, why pick police files? The subject matter doesn't lend itself to being at the same time realistic and inert. Find the proper subject matter and you have the formula, the final step in producing the typical American contribution to world literature.

"Supposing for instance that the protagonist wasn't a detective but a floorwasher. Call it 'Hairnet' and make the heroine Maude—unless you can think of a name that is spectacularly more drab. The stories could be taken from the circular files of the Chrysler Building whose offices Maude mops every night.

"Don't go away. The dull part is just coming. . ."

Magician's Tricks Convince Jury, He Is Awarded $2,275

CHICAGO (AP)—Magician Robert Sharpe gave a performance before a jury in Municipal Court yesterday and won an award of $2,275 damages in a breach of contract suit.

Highlight of Sharpe's magic act was when he pulled four eggs from what appeared to be an empty bag, put the eggs in a skillet under a lid and then displayed eight chicks when he lifted the lid.

Sharpe won the award from the Ralston Purina Co. of St. Louis. The company had engaged Sharpe as an entertainer at nine sales conferences but canceled the contract when it said Sharpe failed to pass an audition. The jury ruled in his favor.

Man Who Stole Bus 'Wanted To Take Ride'

CLEVELAND (AP) — What would anyone want with a "hot" Greyhound bus. It's simple.

"I just wanted to take a ride," police quoted John Junior Watkins, indicted yesterday on bus-stealing charges.

Police said Watkins, 21, took a two-hour ride and was arrested when he backed into a car.

Although oil has been produced in 27 of the U. S. states, about half of all production has come from 14 states.

Olson Remains Choice Over Turpin in Title Battle

Both Fighters Confident; Sugar Ray Selects Bobo

By MURRAY ROSE

NEW YORK (AP)—Carl (Bobo) Olson the hustling Hawaiian from San Francisco, today held firmly as the 11-5 favorite to whip England's moody Randy Turpin in their 15-round middleweight title fight at Madison Square Garden tonight

Although his strange training methods have been as unorthodox as his awkward fighting style, the 25-year-old British Negro said flatly "I'll prove I was right I'll win and bring back the championship to England

Olson poker faced and quiet said calmly as usual, 'I'll take the title Then he left the rest of the talking as usual, to Manager Sid Flaherty

Olson will win was the studied comment of Ray Robinson, who fought them both twice The two will battle for the crown the great Sugar Ray abdicated nine months ago

Olson is aggressive and very busy' said Robinson. "He gives you no room and he thinks fast Turpin can't go back I found that out Olson will keep coming"

Even the visiting British writers and London promoter Jack Solomons have soured on their headstrong colorbearer

I don't approve the way Turpin has trained' said Solomons 'He should have boxed more His timing is off If it goes 15 rounds Olson will win"

Turpin hasn't boxed since last Thursday

Despite Turpin's peculiar tactics and the big odds against him, the Briton's name is still magic at the box office

The International Boxing Club opened its windows today with more than $110 000 in the till IBC Managing Director Harry Markson said the scrap will lure about 17,000 fans and about $175 000 Radio-television receipts will add another $60 000 to the pot Each fighter will collect 30 per cent or about $57 000

The bout will be broadcast and telecast coast to coast by CBS starting at 10 p m, EST. New York and a 75-mile area around the metropolis will be blacked out of the telecast

Off their performances against Robinson and their over-all records Turpin should be no worse than even money But he can't punch with his record tonight He beat Robin on once and was stopped in 10 rounds Sept 12 1951 He has won eight straight since the Robinson defeat and his record is 48-3-1 with 33 knockouts

Olson 25 like Turpin has won 10 in a row since he dropped a close 15-rounder to Sugar Ray in San Francisco March 13 1952 In their first clash, Robinson stopped Bobo in 12 rounds in '50

The major difference is in their attitudes Olson is a steady, if not brilliant fighter No bright lights for this father of four The bald ish slope - shouldered onetime bouncer has a world of stamina boxes well, takes a good punch and can deal out punishment even if he lacks a power punch

Turpin has a deceptively awkward style in which he lunges with his punches and slips counters with a backward motion of his head He has remarkably fast reflexes and can get away with his daring methods

Irish Threaten Georgia Tech's Unbeaten Skein

NEW YORK (AP)—Georgia Tech's 31-game unbeaten string—longest in major college football today—is in serious danger but Michigan State's record of 28 consecutive victories, also tops, looks good for at least a few more weeks

The Engineers expect the toughest fight since they embarked on their undefeated efforts with a 46-14 victory over Davidson in 1950 when they set foot on South Bend turf against top-rated Notré Dame The Techmen were tied by Duke in 1951 (14-14) and by Florida (0-0) earlier this year over the course of the 31 contests

Michigan State which has won every game since it dropped a 7-14 decision to Maryland early in 50 expects to be under considerably less pressure in facing Purdue

Yet the situation is not without its dramatic aspect Purdue in a similar underdog role the same year State and Tech began their strings, ended the best modern major college defeatless skein a 39 games Its victim was Notre Dame—now a strong possibility as a stumbling block for the Georgians

Actually, Tech is carrying the fourth best unbeaten mark of modern times against Notre Dame Behind the Irish 39-game skein stretching from 1946 to 1950 comes Tennessee with 33 (1926 30 followed by Army with 32 (1944-47)

The Spartans need just three to pull even with Oklahoma (1948 51) in the consecutive-contest win column and have already bypassed archrival Michigan and Princeton who posted 24 straight triumphs

The Spartans are also in the best position to keep their string going After Purdue they face Oregon State and Ohio State The biggest threat is Michigan Nov 14 After that comes Marquette

Georgia Tech has games with unimpressive Vanderbilt and Clemson following the Notre Dame contest but the trio of Alabama, Duke and Georgia at the end of the season mean more tough going

One thing is certain Neither Georgia Tech nor Michigan State have to worry about catching up to the all time records University of Washington went 63 games without a loss from 1907 to 1917 while Yale won 48 in a row back in 1885 89

GIANTS WIN AGAIN

SAPPORO Hokkaido Japan (AP)—The New York Giants shutlacked their Tokyo baseball namesake 8-1 today in a steady drizzle before an overflow crowd of 20 000 The visitors 10 hits included Hank Thompson's home run in the seventh

SHORT SPORTS

By John Short

Harding and St Mary are choices to notch wins this week in the opinion of the five persons taking part in the weekly grid guess derby

SHORT

However one panelist sees a dismal weekend for local prep school grid forces Bill Stanbro says Harding will fall before Findlay's Trojans and that Richwood will stop St Mary's win streak

In the guess spot this week is Tony Rizzo of 301 N Prospect St He goes along with Harding and St Mary but the television set may have interrupted his train of thought at that point Playing the law of averages and going with longshots Tony picks Galion to whip powerful Bellevue and Crestline to dump Upper Sandusky

Last week, panel members hit a new low of slightly over 630 Forty-one correct selections were notched out of the 65 predictions Only one panelist, Dolores Basinger called the Harding upset by Columbus Central Holding up the entire panel was the Galion Willard tie which was counted as a wrong guess

This week's list includes 13 area games In addition to Harding's battle Thursday at Findlay and St Mary at home with Richwood Saturday night, the games will send Bellevue to Galion, Ada to Kenton Bucyrus to Shelby, Crestline to Upper Sandusky, Elm Valley to Mt Gilead, Cardington to Big Walnut, Bedford, Mich, to Carey Worthington to Marysville Caledonia at Claridon, Waldo at Chesterville and LaRue at Marengo

Stanford Quarterback Wins in Backfield Poll

PALO ALTO Calif (AP) — Bob Garrett Stanford T—quarterback whose spectacular passing to an upset win over strong UCLA last week earned him The Associated Press back of the week rating would like to have a crack at professional football

Off last week's performance when Bob completed 18 of 27 passes for 196 yards, with 13 of 17 coming in three touchdown drives it looks as though he could make the grade in the pro draft next winter

In the 1953 World Series the Yankees turned 11 walks and one hit batsmen into runs Brooklyn benefited by three walks and one hit batter

Writer Picks Badgers Over OSU Gridders

By JERRY LISKA

CHICAGO (AP)—After a weekend of splendid recuperation—missing only Wisconsin over Purdue—the midwest football seer takes another peer into the crystal ball

Notre Dame 21 Georgia Tech 13—Here's where the Fightin' Irish learn whether they're really the best team in the nation The Yellow Jackets of Bobby Dodd will be hard to handle as they seek to stretch their unbeaten skein to 32 games

Minnesota 14, Michigan 13—The form sheet is discarded in this Little Brown Jug scrap

Wisconsin 18 Ohio State 13—The invading Buckeyes will miss injured Johnny Borton With a newfound quarterback sophomore Jim Miller, the Badgers can harness Alan (The Horse) Ameche for added power It looks like Ohio State will take a long time recovering from that Illinois pasting

Illinois 28, Syracuse 7—If J C Caroline and Mickey Bates don't rest up for future Big Ten scurrying the Illini should keep the boys from Syracuse in a quandary Those camera-men on TV's panorama stint will have to work fast to keep up with Caroline

Northwestern 21 Pittsburgh 14—The Wildcats are ready to make a little fur fly after being flattened by Minnesota and Michigan Pitt's panthers will be down after scaring Notre Dame

Iowa 20, Indiana 13—Iowa hasn't played a poor game yet despite two losses in four starts The Hoosiers had a lot of starch removed by Michigan State a team that had considerable difficulty downing the Hawkeyes

Michigan State 21, Purdue 7—The Spartan victory parade may end but not Saturday

Irish Tackle Named Week's Top Line Star

NEW YORK (AP)—Frank Varrichione a husky 205-pound tackle for Notre Dame who contributed a key play in the Irish triumph over Pitt on Saturday, was picked today as the lineman of the week by The Associated Press

The play that earned Frank the coveted weekly honor came in the third period Pitt held a surprising 14-7 lead After the kickoff a penalty shoved the Panthers back to their 2 Bobby Epps tried to run the ball from behind his own goal line but big Frank broke through and smeared the Pitt player for a safety

That gave Notre Dame two points and put the Irish in a position where a touchdown would put them ahead instead of merely tying It was acknowledged as a key play as the Irish went on to a 23 14 victory

Ed Ried Kraemer, also a tackle but on the opposite side of the line from Varrichione played a bangup game for Pitt So did Lamar Leachman Tennessee center, against Alabama Another tackle Army's Bob Farris likewise stood out in the Cadets' upset victory over Duke Other linemen nominated included George Jacoby, Ohio State tackle

Vic Raschi of the Yankees batted in seven runs in one game against Detroit in 1953 a major league record for pitchers

Illinois Flash Carrying Ball At Record Pace

NEW YORK (AP)—J C Caroline Illinois sophomore is setting a ball carrying pace exceeded only once in the history of major college football

Statistics released today by the NCAA Service Bureau revealed Caroline as the nation's top runner with 668 yards in four games for an average of 167 a game Only San Francisco's Ollie Matson, who set the record of 174 a game as a senior in 1951, has done better At the end of four games that season Matson's average was 171

But Matson wasn't playing in as fast company as the 20 year old from Columbia, S C who ripped off 152 yards against Nebraska 129 against Stanford 192 against Ohio State and 205 against Minnesota

What's more Caroline has carried the ball 80 times a 20 per-game average that makes him the busiest as well as the most effective runner in the country And his average of 8 35 yards per try is best among the frequent ball carriers

He is 129 yards ahead of second place Dick Imer of Montana, who has played one more game, and 285 ahead of the nearest man with four games—eighth place Bob Watkins of Ohio State, whose total is 383

Turpin Stumps Ring World As Title Fight Approaches

By GAYLE TALBOT

NEW YORK (AP) — Anyone who knows even approximately what Randy Turpin of England will do in the Madison Square Garden ring tonight is in a swell position to stump the experts of two continents

The mahogany - colored Briton has a chance to win the world's undisputed 160 pound championship for the second time in his career This is a very valuable chattel and yet nobody outside the visitor's own tight little group knows for certain whether he even is in shape to travel 15 rounds much less whip such a rugged opponent as Bobo Olson

In the three weeks since he landed here Turpin scarcely has pulled on a boxing glove by normal standards of training He has studiously avoided boxing at all in public and has so far as possible shunned any contact with the human race

The last time he was in this country just over two years ago Turpin wasn't like that at all He was friendly and cooperative and more or less normal in his training methods No one pretends to know what came over him in the intervening period least of all the dozen British writers who have been getting a royal runaround from their old pal

If Turpin never had shown in his country before tonight's bout he probably would be an out prop position with the books — nothing they wouldn't accept Olson merely at any odds They would have to take it for granted that the Briton can't really fight a lick and is in no condition to do even his poor best

But that's exactly what makes it the more puzzling A great many persons in this country including the 61 000 who were in the Polo Grounds on the autumn night two years ago when he lost the title back to Sugar Ray Robinson know that Turpin can fight a whole lot and is as game as they come They know too that he was in shape for that one even if Robinson one of the authentic greats, did stop him eight seconds from the end of the 10th round

It is somewhat inconceivable that a man who was capable of beating the Sugar Boy in London and fighting him to a virtual standstill for nearly 10 rounds here two months late could have gone back to the extent some observers think he has in only two years He's but 25 now, same as Olson It seems equally incredible that he would not have himself in top condition for this one

But the pick here has to be Olson by a decision Bobo is a busy fighter with a fine left jab who gains as the rounds go along If he doesn't stun a man he beats him black and blue That should prove sufficient to make him the new champion

Schnelker Signed With Grid Eagles

PHILADELPHIA (AP)—The Philadelphia Eagles today signed Bob Schnelker in end recently released by the Cleveland Browns, in a move designed to strengthen their National Football League entry

To make room for the 6 foot-3 Schnelker the Eagles released Willie Irvin rookie end and defensive back from Florida A & M

Schnelker a 208 pounder from Bowling Green University was drafted by the Browns in 1952 but spent that season in the Marines

Campanella Leads List

Cleveland's Al Rosen Named To Majors' All-Star Team

By JOE REICHLER

NEW YORK (AP)— Roy Campanella, Brooklyn's slugging catcher, heads the 1953 major league All-Star team, one of the strongest squads ever put together.

Campanella, whose 41 home runs and 142 runs batted in are the highest ever reached by a big league catcher, drew all but five of the 179 votes returned by the Baseball Writers' Association of America in response to The Associated Press' eighth annual All-Star poll.

The team boasts seven .300 hitters including the two league batting champions, the RBI and slugging kings, a home run leader, 4 players who have hit 30 or more homers and 5 who have pounded home 100 or more runs.

In the pitching department, the team presents Robin Roberts of the Philadelphia Phillies and Warren Spahn of the Milwaukee Braves. Each won 23 games to tie for the most in the majors. Roberts, in beating Washington's Bob Porterfield for righthanded honors, received 132 votes to Porterfield's 30. Spahn easily topped Chicago's Billy Pierce for lefthanded honors 116 to 40.

Six of the 10 players are brand new. The four holdovers from the 1952 team include Phil Rizzuto, *shortstop, Al Rosen, third base,* Stan Musial, left field and Roberts. Musial made the squad for the seventh time, missing only once since the All-Star team was inaugurated in 1946.

Surprisingly, the world champion Yankees placed only one man—Rizzuto—on the team while the Brooklyn Dodgers, whom they defeated in the World Series, placed three men. They are outfielders Duke Snider and Carl Furillo in addition to Campanella.

The St. Louis Cardinals were the only other club to have more than one representative on the National League dominated squad. Red Schoendienst walked off with second base honors with 163 votes, and Musial topped all outfielders with 142 votes. Schoendienst's total was second only to that of Campanella. The National placed seven men to the American's three.

The only close races were for first base and shortstop, Washington's Mickey Vernon the American League batting king, defeated Brooklyn's Gil Hodges for first base honors 73 to 57 votes. Rizzuto barely edged out Pee Wee Reese of the Dodgers for the shortstop berth, 60 to 58.

Rosen emerged with a surprising 116 to 59 margin over Eddie Mathews, Milwaukee's home run champion.

The All-Star team:

First base — Mickey Vernon, Senator (.337)

Second base—Red Schoendienst, Cardinals (.342)

Third base — Al Rosen, Indians (.336)

Shortstop — Phil Rizzuto, Yankees (.271)

Left field — Stan Musial, Cardinals (.337)

Center field—Duke Snider, Dodgers (.344)

Catcher—Roy Campanella, Dodgers (.312)

Pitcher (righthander) — Robin Roberts, Phillies (23-16)

Pitcher (lefthanded) — Warren Spahn, Braves (23-7).

Mid-Ohio Grid Title at Stake Here Saturday

The first Mid-Ohio Conference football championship probably will be decided Saturday night when the two top contenders, St. Mary and Richwood, meet at Harding Stadium.

Both teams go into the contest tied for first place with 2-0 records in league play.

Unbeaten and unscored upon this year, St. Mary will be meeting a team that has won four of its five starts.

So far, the two have played only one common opponent, conference member Cardington. St. Mary shut out Cardington 27-0, while Richwood defeated the same squad 26-7.

In other league games the Irish blanked Mt. Gilead 36-0 and Richwood downed Elm Valley 12-0.

Outside the conference St. Mary has swept past Lima St. Rose 7-0 and Columbus St. Mary 20-0. Richwood lost out to Marysville, 20-6, but squeezed by Carey and Big Walnut by 13-7 counts.

Tiger Coach Fritz Drodofsky lists a starting line that has Fred Cheney and John Coder at the ends, John Smith and John Fry at tackles, Bill Randall and Max Hoffman in the guard slots and Dave Allen over the ball. In his backfield he'll have Tom Shields calling signals with Jim Fox and Bob Roberts in the half-back positions and Larry Chapman at full.

After Saturday night each team has one conference game left—St. Mary going against Elm Valley in the season finale and Richwood meeting Mt. Gilead.

Prexy Runners Win Third In Columbus Race

Harding High School's cross country runners notched their fifth win of the season and their third in a row yesterday at Columbus when they downed Upper Arlington 15-50.

Running on a flat course at Upper Arlington's Northam Park, the Prexy harriers turned in their best times of the season in taking the first 10 places. All the runners finished under 11 minutes.

Co-captain Hugh Kinnamon returned to Harding's top five after being sidelined by a bad cold. Gene Monroe, co-captain with Kinnamon, came home first with a time of 10:13. Allen Green, Ben Dozier and Dick Bolinger continued to lower their best previous marks.

Fourteen of Coach Ken Somerlot's boys finished in less than 11 minutes. Somerlot listed them as Tim Thomas, Al Hopkins and Tom Rutherford, sophomores; Roger Ward and Delbert Huntsman, juniors; and seniors Dallas Foos, Dick Mull, Joel Williams and Bud Metz. Those were in addition to Monroe, Green, Kinnamon, Dozier and Bolinger.

Plez Booker, senior letterman, returned to the team and turned in a creditable performance in his first race. He finished the two-mile grind in 11:31.

Columbus West will come to Harding Thursday afternoon for a meet at the Country Club course. The visitors have a well-balanced squad, Somerlot stated, and have lost only to Springfield.

Results: Monroe (H), 10:13, Green (H), 10:15, Dozier (H), 10:21.5, Kinnamon (H), 10:37, Bolinger (H), 10:37; M. Thomas (H), 10:43, Foos (H), 10:46, Hopkins (H), 10:51, Ward (H), 10:52, Mull (H), 10:52, Hurta (UA), 10:56, Williams (H), 10:57; Metz (H), 10:58, Huntsman (H), 10:58, Rutherford (H), 10:59, Hartman (H), 11:03, Hoffman (H), 11:15; Daniels (UA), 11:18.5; Morles (H), 11:19, Dutton (H), 11:19; Fogle (H), 11:28, Dotts (UA), 11:30; Booker (H), 11:31; J. Thomas (H), 11:33, Haskins (UA), 11:36; Smith (H), 11:45; Condron (H), 11:49, Kincaid (H), 11:56; Wertz (H), 12:04, Shelton (H), 12:12; Kaelber (H), 12:20, Wandel (UA), 12:22, Larrimen (UA), 12:42, Knachel (H), 12:43, Edwards (UA), 14:03, Hittson (UA), 14:03.

The first time Detroit Lion rookie Lew Carpenter got the ball in a regular National Football League game he ran for a touchdown on a 73-yard interception return against the Pittsburgh Steelers.

Barons Meet Milwaukee at Coliseum Rink

The Marion Barons will go after their second win tonight in the International Hockey League season against the Milwaukee Chiefs on the Coliseum ice at 8:30.

With the addition to Joe Ingoldsby at forward and Steve Brklacich on defense last Sunday in a 5 - 3 win over the Louisville Shooting Stars, the Barons' iced what looks to be one of the strongest teams in the circuit this season.

Ingoldsby scored the first Marion goal at 17:06 of the first period to put Marion ahead. Brklacich's addition to the squad allowed Murray Wilkie to go back to his natural position on the forward line.

Ingoldsby is a redheaded center from Toronto, Canada, who was high scorer at New Haven last season. He is 21 years old, weighs 165 pounds and stands 5 feet 9 inches tall. His wife's name is Evelyn and he is the fifth married man to join the squad.

Brklacich is a big two hundred-pound back liner who has played pro hockey with the Vancouver Canuks, Cincinnati Mohawks and the St. Paul Saints.

Milwaukee will dress one of the biggest men in hockey in 6 foot, 4 inch, 210 pound Hal McNamara for tonight's game.

OSU Runners Work To Cure Fumble Habit

COLUMBUS, Ohio (AP)—Ohio State Coach Woody Hayes is spending considerable time nowadays telling his bobbling Buckeyes one thing "Hold onto that ball!"

Three Saturdays ago, fumbles slowed up the potent Buck ground attack against California. Ohio won that one. But squirming pigskins hurt no little in the Bucks humiliating loss to underdog Illinois the next week.

And last week, in the Pennsylvania game, which experts figured to be a breather, bobbles kept the issue in doubt until Ohio finally won in the last few minutes, 12-6.

This Saturday, it's back to Big Ten competition and Hayes isn't taking any chances on having Wisconsin badger his boys into giving anything away—especially the ball. Wisconsin beat Purdue, 28-19, last week.

Hayes kept the Buck carriers lugging the ball for some two hours yesterday, working on the theory "It's when we start down field and are hit that the ball is lost."

Trojans Puzzle

Findlay Grid Team Blocks Harding's Drive for Title

Harding will attempt to move one step closer to the Buckeye League title tomorrow night when it meets Findlay, one of the big question marks in Ohio's high school football story.

No one can figure out for sure whether the Trojans are up-and-coming or just plain hot and cold. Findlay opened the season by bowing to Akron North 25-6 and Lima South 18-7 and slipping by Bowling Green 14-7.

The puzzle came last Friday, however, when the Trojans bounced back from a 53-0 spanking by Fremont the previous week to knock unbeaten Dayton Roosevelt from the ranks of the "top 10" with a 6-0 victory.

At any rate, the locals will be facing a team that is capable of knocking them from the league leadership.

With conference wins over Bowling Green 20-0, Tiffin 21-6 and Fostoria 40-6 under its belt, Harding is tied for first place with powerful Fremont.

Findlay is in third place with a 1-1 league record.

Harding goes into tomorrow night's tilt at Findlay with its squad in almost top condition. Doug Bibler re-injured an ankle but should be ready to go. Jim Whaley, who was hospitalized just last week, will be missing from his end position on the defensive squad.

Otherwise, Coach Pete Howison expects the Prexies to be in "as good a shape as can be expected."

Awin would guarantee Harding second place in the final league standings.

Grain Quotations

CHICAGO (AP) — Generous rains over a goodly section of the winter wheat belt sent bread cereal prices down at the opening on the Board of Trade today. Other sections of the market were mixed, but more means signs were shown than plus signs.

Soybeans and corn were mostly off fractions.

Wheat started ¼ to one cent lower, December $1.95⅝—¾, corn was ¼ lower to ⅛ higher, December $1.47-1.46⅝, and oats were ½ lower to ⅜ higher, December 77-77¼. Soybeans were ¾ cent lower to ¼ higher, November $2.72-2.71¾.

N.Y. Stock Quotations

NEW YORK (AP) — There was a bit of a sag in the stock market today, but at the same time signs of buoyancy were apparent.

On balance the stock market was lower with the decline extending into the major fractions. There were a few exceptions. The less frequent gains went to around a point at the best.

Trading wasn't particularly brisk and ran at a rate right around yesterday's 1,280,000 shares.

Points of steadiness were apparent in the steels, railroads, distillers, aircrafts, radio-televisions, golds and utilities. Losers were in evidence in the motors, coppers and chemicals.

Going down were New York Central, Texas Co., United Air Lines, American Telephone, Allied Chemical, General Electric, American Tobacco, Liggett & Myers, Chrysler, and Du Pont.

Eyes Transplanted By Cincinnati Doctors

CINCINNATI (AP) — Two hospital patients waited eagerly today to see if the eyes of a dead man were successfully transplanted.

Wilbert (Bill) Bell, 45 of Newport, Ky., and Carl Johnson 22, of Washington Court House, Ohio, received the eyes yesterday at St. Mary Hospital.

They were the legacy of Paul S. Port, who died Sunday.

Doctors indicated results of the operations would not be known until the end of the week.

Delaware Countian Dies After Bomber Crashes in Atlantic

DELAWARE — Gerald L. Hansen, 21, son of Mr. and Mrs. Pielgord Hansen of Berlin Township, Delaware County, was one of nine Navy men who died after their bomber crashed in the North Atlantic, 50 miles south of Iceland, Sunday morning.

The parents have learned from the navy base that all nine men escaped from the crashed plane, but that their life boat was later capsized in a storm about 8:30 a.m. The bodies were not recovered.

The nine men were aboard a Navy Neptune patrol bomber.

Hansen, a 1950 graduate of Brown High School, attended Bowling Green State University for one semester. He enlisted in the navy in 1951 and had attaind the rank of aviation ordinance man.

He had spent Labor Day weekend visiting his parents and had planned to be married to a girl in Florida next January.

His father is a mathematics teacher at Radnor High School. Surviving in addition to his parents is a brother, Gene, who served four years in the navy and 19 months in Korea.
